APRIL 4 SAT
HIKE: FOOL PEAK (MOD+)  Tom Walsh (969-5842) says that this silly peak near Delta rises to 9,712'. It has an east facing cliff resembling Notch Peak, and a nearly vertical drop of 4,000' to the valley floor. Long time Club member Charles Leslie loves this hike, which he considered to be a celebration for fools. It's best to climb it on April Fools Day. Since we can't do that this year, Tom will just act giddy, foolish, and air-heady on the summit. Interested fools should plan to bring their snowshoes, a spare layer of clothes, plus food, water, and sturdy boots. Call Tom to register.

APRIL 4 SAT
HIKE: BEN LOMOND PEAK VIA NORTH FORK PARK–OGDEN (MOD+)  Brian Barkey (801)394-6047 says that you will begin hiking, but depending on the snow level, upper elevations may be quite snowy. Bring skis or snowshoes if you don't like to posthole. This will be an all-day event, no matter what mode of transportation you choose. The view from the top is superb! Call Brian to register.

APRIL 4 SAT

SNOWSHOE: MURDOCK PEAK (MOD+)
From the keyboard of Cheryl Soshnik I quote: "Here's a chance for all you Wasatch Fronters to get to our backcountry playground via a new access and unique new views. We will go to Murdock Peak via two mile canyon. Two mile canyon begins at the top of the Pinebrook subdivision of Park City. There is a short section of trail at the beginning of the hike, but it is mostly an off trail ride adventure. Weather permitting, we should be able to look across three mile canyon to the luge and bobsled tracks at the Winter Sports Park. Along the way, we'll be travelling on ridges above the Canyons Resort, Lambs Canyon, and Toll Creek Canyon. This will be an all day adventure so bring lots of food and fluids. Generic carpools can meet at the Parleys Canyon Kmart at 8:30 or meet the organizer at 9AM at the entrance to the Pinebrook Subdivision. (Exit I-80 at Jeremy Ranch MM143, then go east on the south frontage road for 1/8 mile.)

CANADA TO MEXICO BIKE TOUR
Planning Meeting Sunday April 5, 1998
Tired of day rides and need an unforgettable challenge? Starting this summer, the WMC is planning a cross country bike tour starting at Banff, Canada and ending at the Mexican border. The route will take us through Jasper, Waterton Lakes, Glacier National Park, Yellowstone National Park, the Tetons, Steamboat, Rocky Mountain National Park, Durango, Santa Fe, and Carlsbad. Generally, this follows the Bikecentennial route.

We will do this in three 2-week stages starting August 7-23, 1998 and finishing in August, 2000. Approximate total miles 2,800, doing 60-80 miles per day with rests and plenty of time for sight seeing. This epic ride follows the same format as we did with the Sea to Shinning Sea ride from 1988 to 1991, with a motor home for a sag wagon, trailer for bikes, and possibly a professional cook and driver.

There will be a planning meeting and sign-up meeting on Sunday April 5, at 7:00 pm at Ralph and Donna Fishers, 649-0183, 7411 N Hitching Post (Pinebrook) Park City. Also, Call Bob Wright, 272-6792 for more information.

APRIL 5 SUN

On Sunday, we'll get on the Weber River and practice some of these rescues. This is a good course for novice river runners, who have been on the water and recognize the need for safety and rescue techniques. It is equally pertinent for experienced boaters who need to clear the cobwebs and remember how to do all of this. Space is limited, so call early to reserve your spot. Vera 292-8332. Cost is $50 for WMC member.

HIKE: GRANDEUR FROM BOTH THE WEST RIDGE (MSD 8.1) AND FROM CHURCH FORK (MOD/TURTLE 5.4) Yet another first time hike organizer! It was either let Charlene Allert (463-7179) organize her own turtle hike, or she would make good on her threat to hobble the speedo hikers. This seemed like the better alternative. The west ridge is a steep but direct route to the summit of Grandeur (8,299’). Church Fork is scenic and gradual, and starts at a higher elevation. Meet Miss Char at Skyline High at 9:30 am. She’ll send the fast paced hikers off to do the West Ridge, and then she will head the turtles up Church Fork. The two halves will rendezvous at the top for a group celebration. It’s almost an historical hike, as the summit register goes back many many years, and contains the names of famous old Wasatch Mountain Club members. Ben hopes to get back early enough to catch a casino dinner in Wendover after the hike.

There will be a planning meeting and sign-up meeting on Sunday April 5, at 7:00 pm at Ralph and Donna Fishers, 649-0183, 7411 N Hitching Post (Pinebrook) Park City. Also, Call Bob Wright, 272-6792 for more information.

Larry Coulter will conduct an outdoor class (maybe at a local glacier?) on roped travel. Basic rock climbing belay skills are nice but not necessary, as the fundamentals will be taught. Harness, ice ax (the club has a few) and prussik loops are needed. Call Larry at 485-9623 to register. Included in the class will be tall tales of the giant, sled eating crevasses on the lower Kahiltna Glacier.

JUNE 24 1998
EAST AFICAN SAFARI AND MT. KILIMANJARO CLIMB The 10th Westminster College East African Safari, led by Drs. Barry Quinn and Robert Warnock, Dept. of Biology, will depart 24 June for Kenya and Tanzania. The 17-day trip will explore some of the major game parks of these countries including Kenya's Samburu, Lake Nakuru, and Maasai Mara game parks and Tanzania's Olduvai Gorge, the Serengeti National Park, and Ngorongoro Crater, considered one of the seven wonders of the natural world. Of interest to WMC members will be a non-technical climb of Africa's highest peak, Mt. Kilimanjaro, at 19,320 feet, in lieu of the Kenyan game parks. Cost of the trip is $5,200 and includes all air and land transport from Salt Lake City, first class hotels and game lodges, park entrance fees, guides and porters for the Kilimanjaro climb, and most meals. An optional five day extension to explore the Indian Ocean Coast, Malindi and its coral reef park, and the ancient Arab city of Lamu will be available for $875. For a brochure or further information, call Barry Quinn at 488-4191 (office) or 272-7097 (home).

AUG 7-9 (APPROXIMATE)
CLIMBING - WIND RIVER RANGE, WY- Herb Hayashi wants to get a team together to prepare for a trip to the Winds to do some big routes. Absolutely beautiful area and a true gem of a destination. Get with Herb (278-2620) early on if you're interested, he wants to do several preparatory climbs to make sure everyone's up to the pace.

JULY 18-AUG.2
BACKPACKING/MOUNTAINEERING - SAN JUAN MOUNTAINS - From Silverton, CO., we will drive over 4WD-only Stony Pass. On Sunday we'll backpack over 12,500' Hunchback Pass to Sunlight Creek, our base camp for 3rd class scrambles up two high thirteener: Vellecito and Leviathan Peaks. While hordes of hikers throng to the 14ers, we'll have this beautiful remote area
in the San Juan Mountains all to ourselves. The leader, the first woman to climb Colorado's 100 highest mountains, will be spending the entire week in the San Juans, bagging little-known and rarely visited summits. You must be in shape for this altitude. Early starts are mandatory to beat the lightning storms. Joint trip with the Colorado Mountain Club. Utah organizer: Jane Koerner (801-750-0051) in Logan
(Map: Storm King/ Backpacking: 18-20 miles r.t./ Climbing 6-8 miles r.t. per peak)

RAGBRAI XXVI
Applications are being accepted for the three remaining openings for the WMC Division of "TEAM SPIRITS" as it travels with the Des Moines Register's Annual Great Bicycle Ride Across Iowa (RAGBRAI). You not only must have the
crazy desire to bicycle 520 miles across Iowa in the middle of the summer with 15,000 other people, but all members of "TEAM SPIRITS" share the responsibilities of driving the Support Transport Vehicle (STV) pictured here. A non-refundable deposit for team entry fees is required. Interested parties need to call Cheryl Soshnik (435)649-9008 ASAP.

DIRECTORS MESSAGES

WINTER SPORTS DIRECTOR
TOM WALSH

THANKS! To all those who helped with this year's ski season.

We had a pretty good season, with no major injuries, nor any disastrous avalanche problems. The view from here is that skiers and snowshoers are becoming more aware of avalanche hazards. This year I noticed more planning and preparation for trips to mitigate avalanche danger. We had a huge turnout for the Frohboese Avalanche Clinic and the beacon practice. I was really gratified that none of "our people" were involved in any of the slides and rides that occurred in the Wasatch.

The weekend yurt trips were great successes. There is just no better way to ski the back country than from a yurt. Participants in the four trips the Club did this season, all reported big fun and unsurpassed skiing conditions. Thanks go out to Brian Barkey for all his yurt work.

Touring made a revival this year under the guidance and coaxing of Mike Berry. Tourmeister Mike mapped 6 or 8 new tours and scheduled trips throughout the winter. Mike's work has resulted in a revival of the long kick and glide tours that had been allowed to dwindle to near extinction. A small and dedicated group was out every weekend laying tracks all over the Uintas. Next winter there will be yurt trips just for touring.

A big thanks has to go out to the dozens of volunteers who organized the NTD, MOD, and MSD trips. I was impressed by the generous response of all the Club members who volunteered their time to lead trips. My job was made easier by the willingness of the skiers who shared their favorite places with other enthusiasts. There are so many leaders to acknowledge, there isn't space enough to mention you all by name. THANKS FOR YOUR HELP.

A special note of thanks goes out to Edgar Webster and George Westbrook. They both did tremendous jobs leading trips that numbered in the dozens. George was always willing to lead the big and tough ones. Edgar lead a grundle of trips plus he conducted several classes to improve telemarking skills. He also found the time to be the leading sand skier of the Club.

Let's do it again next year!

Two additional pieces of business need to be attended to: HAZARD WARNING. In addition to sunscreen for your skin, remember glasses for your eyes. Glare and reflection from snow fields on sunny days can severely burn your eyes. Last winter a Club Member incurred a severe sunburn in his eyes. He suffered pain and sensitivity to light for months. His unfortunate experience should be a warning to everyone who goes out to the snow to play. You better protect your eyes, as well as your skin, if you want to continue playing outdoors.

VOICE MAIL As of the deadline to submit this blurb to the Rambler Editor, the Voice Mail notification for ski trips has not been doing a Land Office business. All it takes is a call by Tuesday night so I can put it in the Voice Mail. Call me at home at 969-5842 with details of your proposed trip. For news on upcoming outings, call the WMC phone at 463-9842 for the recorded message.
From the Hiking Directors:
by Cheryl Soshnik and Mohamed Abdallah

The weather forecaster's are predicting a wetter than normal el niño spring, and here we go scheduling tons of hikes. The early hikes are in the foothills or out west, where the snow SHOULD be melted. All I can say is be prepared for anything. Maybe some of these early hikes will turn into snowshoe trips. Or, don your hip waders, snorkel, or carry an umbrella. However you do it, just get out there and have fun.

Mohamed and I are looking forward to a wonderful hiking season, with your help. Many of you have hikes that you have traditionally led, or would like to lead. Call us early with your wishes, and we'll get you scheduled for that favorite hike, backpack, or car camp. We're also looking for new blood to organize hikes. If you've not organized a hike before, don't wait for us to call you...we can help you decide where to go, and give you advice on how to plan a successful outing. We both have e-mail addresses too: mohamed.abdallah@hexcel.com and cheryl.soshnik@ucs.org

Let's have a fun, but safe, hiking season. We've printed the hiking ratings in this month's Rambler. Keep them handy throughout the season so you know what you're getting into. Remember the guidelines for all WMC hikes: dogs and children under 18 are excluded from the hiking activities unless specified in the Rambler or by the organizer. Hikers, heed the wishes of your trip organizer when they request regroup stops or if they ask you to not run on ahead of the group. We're trying to communicate through the trip announcements when the speed of the hikes is scheduled to be faster or slower than normal. Dress appropriately, and carry spare warm clothing for these early hikes. Remember, we live and play in the mountains, where the conditions can change rapidly. Do you carry the "10 essentials" on every hike? What ARE the 10 essentials? Here's a contest: the first person that SHOWS me the "10 essentials" packed in their day packs, WINS A PRIZE. The winner gets their choice of a collector's item WMC tee shirt, or the famous WMC hiking map.

See you on the trails!

A final word from the Snowshoe Coordinator

We snowshoers had a very successful year. I'm not talking about 70 trips of various difficulties to different and interesting locations. I'm not talking about the the thirty different people who led those trips, although (the Club) and I very much appreciate their efforts, and trust they will help again next season. I am not talking about the very nice snow we received in the end of January thru February.

As snowshoe coordinator, I believe we had a very successful year primarily because we had a perfect safety year. We all came back, and I believe that this grand accomplishment is a direct result of the awareness, judgment, knowledge and skills we are all gaining from formal and informal training in the hazards of the backcountry. I thank those leaders who have developed their situational awareness to the point where they are always critically analyzing the terrain and snow conditions around them. I especially want to thank those who canceled trips on hazardous days! I know its not easy to tell an eager group that you are canceling a trip because of hazardous avalanche conditions, but these are not vital missions, and there will always be another, even better day - that is, there will be if you choose NOT to venture into the known hazard.

The season itself was unusual - the previous (1996-7) winter saw 200 % normal snowcover at the start of January. Livin' was easy! This winter (1997-8) had 50% normal, a fourfold decrease! We were hatin it! Then it picked up, and even recovered to normal (plus) levels, and at this writing (mid March) we have had some very nice snow indeed.
As mentioned, thirty people shared the leadership load. That is a nice division. Thanks to you all. I would especially like to thank my “heavy lifters,” people who received my Sunday evening desperation calls and regularly filled holes in the schedule. Those people (and the number of trips they led): Russ and Linda Pack (5), Norm and Carma Pobanz (5), Vince DeSimone (5), and Mohammad Abdallah (4). Six different people led three tours: Janet Friend, Gretchen Siegler, Tom Willis, Doug Stark, Scott Patterson, and Cheryl Soshnik. Thanks to you all. See you next season.

1998 SUMMER BOATING SEASON - WMC
Vera Sondelski - Boating Director  292-8332

WOW!!! What a great start to our season. We have a full calendar of fun trips lined up, thanks to the many WMC members who applied for permits. Thank you! Even if you didn't get a permit, you helped increase our odds and it may be your lucky card next year. If you are interested in these trips, remember to sign up early and send a deposit ($25 for weekend trips, $50 for longer ones). The permit holders need to reserve campgrounds and pay deposits on these trips, often per person. DON'T WAIT until the week before. If there aren’t enough signed up (and paid up) by 30 days before the trip, we will have to cancel. Please help us (yourself) and SIGN UP EARLY.

This is the preliminary list, generated from our meeting on March 7. I’m sure there are more permits lurking out there as several hardy club members are calling in for permit cancellations and to get on wait lists. We also still have a few trips needing a trip organizer: San Juan (July 14 / 15, May 24 - 3 day - 4 pax ) Wwater -( July 31 - Sept 12 ), Desolation (Aug. 14).

Other trips will be scheduled in early spring depending on water flow. Watch the WMC web-site for breaking news and/ or contact the following organizers:
Price River - small craft, Janis Huber  486-2345
San Rafael - short window of opportunity , call Phil Baldwin 596-1143
Escalante River - small craft, may or may not go all the way to Lake Powell
Main Salmon - early season June - need organizer
Bruneau, Jarbridge or Owyhee - (sthwestern Idaho area) - some time in June, looking for river guide and interested paddlers, contact: Steve Susswein  (435) 647-9833

PARTIES: Watch for dates and details in upcoming Ramblers. They are not to be missed!
NEW BOATERS: Join us on our Gray Canyon trip on May 16. We’ll show you the ropes of this exciting sport and get you ready for a season of adventure. Any questions?? Call Vera (292-8332) or any one of the coordinators:

Rafting: Craig McCarthy 424-2376
Canoe: Eileen Gidley 255-4336
Kayak: Mike Dege 571-7684

TRIP ORGANIZERS: Meet us on April 21st at Tres Hombres (3298 S Highland Dr) at 6:30pm. We’ll go over the nuts and bolts of putting together a successful trip and show you how to have fun at the same time! Don’t miss this one. Also, please join us if you’re contemplating putting a trip together in the future.

TEAMWORK The boating trips involve a fair amount of organization, gear and skill. They are also a lot of fun and offer an experience beyond comparison. We offer a program to help beginners learn the necessary skills to enjoy the river and contribute to the paddling efforts. These trips are not for your vacation pleasure. Our trips are run by volunteers and rely on everyone pitching in. We hold planning meetings prior to each trip and every participant is expected to volunteer for part of the workload. We do group meals and trip members often rise to the challenge and create some wonderful menus. Boating does require you to plan ahead and pitch in; it rewards you with camaraderie and exciting adventures.

I hope to see all my old friends, my new friends and my “not-yet-met” friends on the river!!

Vera

From the Kayaking Coordinator
Mike Dege

Spring is here. Time to unbury the yak from under that heap in the garage And get in shape. One of the best ways to nail your roll is to practice in the pool. For those just starting out, this is the best way to get familiar with the boat and practice or learn to roll before you drop your boat in 37 degree spring runoff. I have listed the pool sessions I know about as of publication date and also a list of where beginners can get instruction. Since kayaking is an ambitious sport to teach, the WMC is not planning on giving instruction. The lists of pool sessions and lessons are not guaranteed or complete, just what I could find out about. When in doubt, give a call, or give me a call - Mike Dege 571-7684
