PROSPECTIVE MEMBER INFORMATION

Applicants must attend two official WMC activities other than socials. Activities are listed in *THE RAMBLER* which is the official publication of the Wasatch Mountain Club, published by and for its members. Prospective members may receive *THE RAMBLER* for two months by writing the Membership Director at the above address and enclosing a check for \$5.00 payable to the Wasatch Mountain Club. (There is a \$10.00 charge for returned checks.) An application form may be found in the center of *THE RAMBLER*. Ask the activity leader to sign your form after completing the activity.

MEMBERS: If you have moved, please call the WMC office or send your new address to the Membership Director. Allow 45 days for address changes. If you did not receive your *RAMBLER*, contact the Membership Director to make sure the WMC has your correct address. Replacement copies are available, while they last, at the WMC office during office hours.

TO SUBMIT AN ARTICLE or PHOTOGRAPH: Articles should be on diskette, MS/DOS or Macintosh format, and preferably in Microsoft Word or WordPerfect form. Label the diskette with your name and identify what file(s) are submissions. Enclose a hard copy in case your diskette cannot be read. Mail submissions to Publication Director at the office address, or hand deliver them to the WMC office. Leave hand deliveries in the **Blue** box outside the door. The deadline is 6:00 pm on the 15th of the month. Photos of all kinds, B&W and color prints, and slides. Make sure that the photo is labeled with the photographer, date, and names of people. Unless a stamped, self-addressed envelope is provided, returned submissions will be available in the **Red** box outside the office door about 1 week after publication.

WMC Purpose

(Article II of the WMC Constitution)

The purpose shall be to promote the physical and spiritual well-being of its members and others by outdoor activities: to unite the energy, interests and knowledge of students, explorers and lovers of the mountains, deserts and rivers of Utah; to collect and disseminate information regarding the Rocky Mountains in behalf of science, literature and art; to explore and picture the scenic wonders of this and surrounding states; and to foster awareness of our natural areas including their plants, animal and bird life.

The 1970's effort to secure wilderness act protection for the Lone Peak area is one of the Wasatch Mtn Club's proudest moments. A Lone Peak Wilderness Committee was organized from among club members and other individuals interested in the cause. Some members of the committee lobbied local and national political leaders. Others described proposed boundaries that became part of the congressional bills introduced. Several individuals testified at public hearings. Educating the general public as to the benefits of wilderness designation became the responsibility of a well-organized speakers bureau. This months cover photograph, taken by Alexis Kelner, Dennis and Karin Caldwell, played a prominent role in several publications, displays, and numerous slide presentations. - A. Kelner.

TWENTY FIVE YEARS AGO IN THE RAMBLER

August, 1970

by Dale Green, Historian

"Know Your Wasatch Week is over!" says our Pres. Del Wiens. Our fiftieth anniversary celebration was a great success as summarized in the President's Column. The pancake breakfast, organized by Barb Lovejoy & Denna Wright, served 350 people. Senator Moss was there and said a few words about conservation. Nature walks followed. Evening lectures "were of uniformly high quality" with Gail Dick (hiking), Dean Brimhall (climbing), Armand Earley (geology), Walter Cottam (botany), Rey Remund (animals), Hal Lamb (birds) all giving lectures. The attendance at each talk was estimated at around 75-100 people.

The senior citizens' day was organized by Wolf & Elfrieda Snyder & Carl Bauer. A low turn-out was expected for the After-Hours Sunset Hike, led by Oscar & Phyllis Robison, and they were not disappointed. A canyon clean-up was hosted by the Rathbuns and Viavants and netted a huge heap of trash. "Only" 50 people turned out for this. Much more could have been done with a larger turnout. The Central City Children's Day hosted over 120 kids at the lodge for free lunches and short hikes. The Moonlight Hike had about 60 participants. "Everyone learned a great deal from the experience. Primarily we found how difficult it was to get people out."

This month's Rambler was chock-full of trip write-ups including Box Elder Peak, Mt. Majestic, Zion Narrows & Orderville Canyon, Mt. Millicent, Storm Mountain, American Fork Twins, Silver Lake (moonlight), The Four Big Ones (Twin Pks, Beat Out, Lone Peak, Albion Basin to White Pine Cyn), Lake Solitude, Sugarloaf, and a Ladies Hike.

FIFTY YEARS AGO IN THE WMC

July, 1945

(from Board of Directors' Minutes)

The trip to Lake Blanche will include a breakfast at Maxfield's Lodge [a rustic log structure located across from Mule Hollow] at 7:45 am.

A new publication "Western Skiing" requests a reporter be appointed from the WMC. Orson Spencer volunteered for the position.

The "Ski and Mountain Corps" requested that they become a part of the Wasatch Mountain Club. The Board declined, saying they would prefer to sponsor them but not have the group affiliated directly with the Club.

After discussion, the Board was of the opinion that everyone should sign up for trips at Wolfe's Sporting Goods Store [on 2nd So. between State & Main] and pay their trip fees there.

Here is another story from Noel DeNevers. If you would like to share any special reminiscences with other members, please send them to Dale Green, 4230 Sovereign Way, SLC, UT 84124.

At the time of the 50th anniversary I was club entertainment director. Del Wiens was president. We made a big thing of the 50th. Sally Nelson put out a great 50th anniversary Rambler.

At a board meeting it was suggested that we should get the Governor to declare Wasatch Mountain Club Week. I was the board member most likely to know how to do that, so I got the task. I called the Governor's secretary, learned what to do, etc. I wrote out a proper declaration, "Whereas the Wasatch Mountain Club has... and Whereas...., Now therefore be it declared that...."

We were told to show up at 10:00 am in the capitol on the day the governor signed those. The party that came was Del, Dale Green, Sally Nelson, Edith Green, Claude Stoney, Harold Goodro and I.

The Governor was sitting in the conference room, signing a list of such declarations. When our turn came we all went in. Governor Rampton had obviously never seen any of these documents, which had no real importance. So his secretary handed it to him. He looked at it, for the first time. Then he looked up at us, and said "You know we disagree on the Cross-Escalante Highway." Without batting an eye, Del replied, "We will convince you, Governor."

Rampton looked surprised, then put his head down, signed the paper, gave it to us, and off we went. I don't think there was any further discussion. The conservation groups, including the WMC, defeated the Cross-Escalante Highway. That area is now part of the Glen Canyon National Recreation Area. Rampton was a very good governor, but not outstanding on conservation issues.

POT LUCK The Entertainment Committee is planning an end-of-the-season slide show and pot-luck, to enable the WMC's "shutter bugs" to share their slides with their WMC friends. Plan on taking some great slides on your WMC trips this spring/summer/fall, load up the carousel at the end-of-the season for a fun evening of sharing our adventures. More details will follow in future editions of the Rambler.

April 14-21, 1996 - WMC BAJA HA!

HA! SAILING TRIP - The Sea of Cortez between Cabo San Lucas and La Paz

will be the cruising area for a fun-filled trip next spring. A good chance to avoid the UTAH MUD Season and chase away WINTER BLUES in WARM SUNNY MEXICO. Activities could include snorkeling, scuba, whale watching, and visiting interesting shore-side places and towns.

Three BOATS have been reserved. One is full already. Only TEN spaces remain. To reserve your space send a non-refundable deposit of \$25.00 to Vince DeSimone PO Box 680111, Park City, Utah 84068-0111, or CALL 1-801-649-6805 for details.

Voice-Mail

by Jim Zinanti

Dial 238-9669. This is the new voice-mail system being tried by the WMC. It allows directors to leave messages for members and prospective members to get current information about the CLUB. Messages can also be stored for the various directors.

Activities which miss the Rambler publication can be announced through the voice mail. The various mail boxes are:

2	Public Relations (information director)
3	Membership
4	Hiking
5	Boating
6	Conservation
7	Entertainment
8	Lodge
9	Mountaineering
10	Publication (Rambler)
11	Bicycling
12	Current Events and Volunteer Opportunities
13	Skiing and Winter Sports

In order to listen to the message or leave a message in one of the mail boxes, call 238-9669. When asked for the extension number, key in (You need a touch tone phone.) the box number and a #. The message will be heard and you can leave a message in the box. Directors can check the boxes from their own phones and do not need to see if a message was left for them at the WMC office. Note: The answering machine at the WMC office has been disconnected.

From THE BOATING DIRECTOR

By Janis Huber

Sometimes I personally wonder if our efforts to stop the damming of rivers is effective. I was sitting in a board meeting next to Phyllis Anderson. I noticed a club article written in 1981 in her possession. One of the articles went something like this:

HELP STOP THE DAMNING OF THE YAMPA!

Send your protest to:

<an address was given here>

Also urge him to declare the Yampa and Green Rivers as Wild and Scenic rivers.

The Colorado Whitewater Association has requested the names of all non-commercial and special population applicants to do a mailing about the Juniper-Cross Mountain Project, a pair of dams planned for the Yampa just upstream from the Monument. They have advised us that no

commercial use will be made of the names received.

<rest of the article is not included>

<end of article>

The Yampa is still one of the last major rivers in the Colorado Basin with no large dams or reservoirs. Although the "Juniper-Cross Mountain Project" still threatens, it still has not passed. Although the Yampa has still not been declared as a "Wild and Scenic River", I think their protests were timely and effective. This has also helped renew my faith in the fact that maybe my letters may really have an impact. *ed. note: So, please, the next time there is a call for mailing letters for a conservation oriented cause, stop and take the time to write one. Thanks.*

From THE BICYCLING DIRECTOR

By Rick Kirkland 486-0909

Are you thinking about joining us on a club ride? Please do! Let me offer a few suggestions that may help you be prepared when you do:

Start off with a ride rated "(EL)", known as elementary which is usually less than 10 miles or, "(NTD)": not too difficult, more challenging than one rated EL yet, fairly short and flat.

Generally, the rating scale is as follows:

*(NTD) = less than 40 miles and fairly flat

*(MOD) = 40-70 miles, flat to rolling terrain

*(MSD) = more than 70 miles with some climbing

Note: Significant climbing increases the rating; for example, a ride of less than 40 miles with major hills is rated (MOD).

Arrive at the starting point early to get your equipment in order, ready to roll promptly by the designated starting time. That means

tires inflated, mechanical adjustments complete, snacks and layers of clothing packed, etc.

Please stay with the group as much as you can. Don't worry if you fall behind, as your leader will inventory the group on a regular basis to prevent any serious separation of riders. Please don't ride two or more abreast unless there is no significant vehicle traffic. Help other cyclists avoid vehicle encounters by calling "CAR UP" or "CAR BACK". Riders behind you will appreciate your warnings when you point down to potholes, glass, and other road hazards. **All riders must wear a helmet. It is official Club policy to deny participation to anyone without a helmet.** Attend a tire repair clinic. Keep an eye out for them, as they are scheduled and posted periodically in the Rambler.

Most of all . . . ENJOY!!!!

From THE PUBLICATION DIRECTORS

by Jim Zinanti & Reda Herriott

The following is an excerpt from the WMC membership manual edited by Wick Miller and published in June 1993.

"NOTICE TO NEW (AND PERHAPS OLD) MEMBERS: THIS IS A VOLUNTEER ORGANIZATION

After reading this manual, it should be clear that the Club operates on volunteer labor: volunteers to lead activities, volunteers to maintain the lodge, volunteers to call for leaders, volunteers to mail the Rambler, volunteers to host socials, etc. etc. Now there is a tendency for the Club to keep asking the same old Geezers and not get New Blood. If we call the same old Geezers, and not you, it is because we don't know you yet. So if you are New Blood: **Don't wait to be called!** Call and volunteer to lead your favorite hike, to help with the Rambler, or whatever. (Yes, I know, you filled out the questionnaire indicating what you would be willing to do. If we haven't followed up, it's our fault, but we, like you, are only human.)

We sometimes have trouble finding enough hiking and ski tour leaders. Part of the problem is that we call, say, in June, asking you to lead a hike in July, and you are going to be out of town; then when we call in July to ask you to lead a hike in August, you are out of town and can't be reached. So two things: (1) if you are asked, and will be available, please say "yes"; and (2) if you know you are going to be unavailable during the calling period, please call early and offer your services.

From time to time various Club members have suggested that we have a service requirement for maintaining membership. Such suggestions have not gained wide support, because of the logistics in enforcing such a regulation. But even though the Club has no official regulations, there is a wide spread unofficial feeling that each member should undertake a volunteer obligation at least once a year. And more if you are a heavy Club user: at least one volunteer obligation for every ten times you use the Club. There are a few who use our organization as a Cheap Club Med; admittedly a few, but such individuals are most unwelcome in this Club.

If you lead an activity, you get invited to the yearly Leaders Party in November, one of the most enjoyable socials of the year."

The Wasatch Mountain Club has existed for 75 years based on the energy, enthusiasm, and efforts of long time and new members to make our Club work. The WMC has offered a friendly social environment for many people who feel alone even if it is but for a short time in their life. The Club offers others access to new trails and activities. Others find a channel to invest efforts in protecting the precious back-country. To some, the Club offers a way to extend themselves physically and mentally in areas that perhaps normally they would be reluc-

tant or afraid to do so but find it easier in the company of a supportive group: the Wasatch Mountain Club. Personally, the editors have received all the benefits of these and have decided to reinvest their efforts in the WMC.

This article is somewhat of a yell for **Help! Help! Help!** There are several areas in which the Club has an urgent need for assistance. So, if any of the following are of interest, please give us a call, use the new voice-mail system, or come to a Board Meeting. (The entertainment possibilities are endless.)

- Rambler Mailing Coordinator: call Jim Z. (484-8271) or Reda H. (483-1410)
- Membership Assistance: call Leslie W. (328-9364) or Felicia K. (266-9462)
- Snowshoeing coordinator: call Cheryl S. (1-801-649-9008) or Brian B. (583-1205)
- Lodge co-director: call Martin C. (968-1252)
- Boating Instruction coordinator: call Janis H. (486-2345)
- Kayaking Coord.: call Janis H. (486-2345)
- Wilderness activists: Rich O. (1-801-647-0205)
- many activities leaders, lodge workers, social hosts and helpers, etc.: call an activities director

Also, the editors of *The Rambler* would like to thank the many contributors who provide material for publication, including Trip Talks, information on events of interest to Club members, technical and safety information on outdoor recreation, and scientific and historical information of likely interest to Club members. To those whose submissions are not seen in the next *Rambler*, we apologize that we cannot publish everything. We do have limited space. Sometimes we hold submissions until we can find space for them.

Also please note: The membership application (along with the liability release and activity survey) are no longer published in each *Rambler*. The Governing Board made this decision in June because using 3 full pages for this is quite costly. The new Club policy is to have forms available from activities leaders.

From THE LODGE DIRECTOR

by Martin Clemans

I would like to thank all those who participated in the work parties in June and July. They put a lot of effort into repairing and cleaning the building for the benefit of those who use it.

At the June work sessions, Scott and Krista Schonrock, Kristie Price, Ken Engstrom, Tom Miller and Camille Pierce were busy replacing broken roof joists, dismantling the crushed dormer, shingling the storage building, sanding and oiling the stair railings, as well as a lot of cleaning, show shoveling and clearing debris.

The July work, done by Rich Osborne, Scott Schonrock, Kyle, Porter and Kenzie Williams, Betty Cluff, Ken Engstrom, Ursula and Josie Jochmann, Vince DeSimone, Cassie Badowski, Bill and Linda

Ransom, and Alan, Dale and Shaun Brennan, included finishing storage building shingling, installing a door in the storage building, replacing glass, replacing deteriorated wood on the annex roof edge, installing a drain by the door, painting, starting the restoration of the dormer, and the inevitable cleaning and clearing debris.

the next two work parties are scheduled for the 12th of August and the 26th/27th of August. Please set aside the time and plan to join us there as there are still many projects to do or complete before the summer is over. Our work season is short but the improvements will make the lodge a much nicer facility to use for club activities.

See you there.

HELMETS-HELMETS-HELMETS!!!!!!

We were climbing on WindowBlind Peak, a sandstone butte in the San Rafael Swell. Marc Hutchison and I were standing on a narrow belay ledge, waiting out turn to climb. Suddenly, the warning "ROCK-ROCK!!!" came down from above, and we were showered with a barrage of baseball size rocks. We smashed ourselves against the wall, hoping the missiles would bounce over us. One big chunk hit Marc on the head and bounced over to crush his hand placed against the wall. Fortunately, he was wearing a helmet. If he had not been wearing a helmet, the rock would have impaled itself into his brain and not bounced over to hurt his hand.

As it was, his head was totally safe, but his climbing hand was bruised and very painful.

Helmets save lives. You may wear one for years and never take an impact, but that 1 time will save your life.

POLICY::: As of August 1, 1995, All participants in any WMC climbing activity will need to wear a helmet.

A helmet should be worn while leading, following, belaying, scrambling, and standing in steep terrain. •

From the MOUNTAIN BIKING COORDINATOR

by Linda Palmer

We're getting lots of new interest in riding, so I'll repeat the rating system this month:

NTD: Less than 10 miles round trip, less than 700 feet of elevation gain, and no significant technical aspects. Little or no mountain biking experience needed. Gradual climbs and descents.

Example: Shoreline trail above the U. of U.

MOD: Up to 16 miles round trip and up to 2800 feet of elevation gain. Long, gradual or short, steep climbs and descents. You should be able to maneuver over moderate obstacles such as rocks, small logs, sand, streams, and bridges. Some walking might be

necessary. Examples: Mueller Park; Telemark Park at Deer Valley.

MSD: Typically more than 12 miles long (round trip) and more than 2500 feet of elevation gain. Very strenuous. Extended portions over rough terrain, requiring excellent physical condition and expert riding skills. Example: Wasatch Crest trail from Millcreek over to Wolf Mtn.

Things to bring? A helmet and eye protection (required!), snack, water, sunscreen, a spare tube and patch kit, pump, and allen wrenches. Bug repellent, a small crescent wrench, and a chain tool can also be helpful.

DOUGHNUT FALLS HIKE

June 30, 1995
by Randy Long

This nice waterfall to the south of Big Cottonwood Canyon was the easy hike for this Saturday, June 3. I wanted to go from the Spruces but after I talked with the Forest Service and they advised me to go up the original trail due to snow and because the gates at the Spruces and Jordan Pines were still closed. I decided to use the original trail. So, five ladies and myself met at the usual time and place where I explained that Doughnut Falls is named after an arch-like formation near the top which the water falls through, (the Donut).

The weather was nice, (believe it or not), with just enough cloud cover. There was, however, quite a bit of snow on the ground and we had to do a little bit of wading. We missed our trail a couple of times, but our spirits were high because we were finally outside enjoying nature. We even saw a few deer and what looked like a Moose.

KESSLER PEAK

July 1, 1995

This hike, being held on the first day of a long holiday weekend, drew only eight participants. The leader chose the route up Mineral Fork, past the Silver Mountain mine, as presenting the least amount of difficulty due to the long-lasting snows. While some snow was encountered, there was much less on the west-facing slopes than was apparent when looking down on the opposite, east-facing side. The north slope trails were never even considered. The day was cool and pleasant, although the descent was made under skies threatening late afternoon thunderstorms.

Upon arrival at the summit the group found the mailbox and register were missing. A gaping void marked the spot where the box was secured under numerous boulders since it was placed there in May, 1966. At that time most peaks in the Wasatch hosted a mailbox and register; Kessler Peak was one of the last to be accorded that honor. Over the years the registers gradually disappeared, probably due to changing social and moral values, and increased use of our mountains. Register entries that used to be

expressions of the experience and exhilaration of the climb, or appreciation of the view and beauty of the surroundings, gradually gave way to gross, profane and obscene scribbles and became offensive to many. And for those whose inclinations are to deface or damage whatever property that may be in their presence, the registers offered the only man-made objects in reach. It was inevitable that the registers would disappear. And now one of the last survivors, that of Kessler Peak, is gone too. While few may mourn its absence, the greatest loss is to the younger generations of hikers and climbers who will never experience that pleasant mountain top pastime of perusing the register to see who has been there recently and to share their impressions as inscribed in that book.

Participants in this hike were: Ellie Ienatsch, Dan & Nancy DeMarco, Chris Dalby, Judith Johnson, Karen Perkins and Allene & Charles Keller.

DESOLATION/GRAY CANYON RAFTING TRIP

May 26-31, 1995

By Joseph J. Jerkovich

Though rainy weather threatened to put a damper on our trip at times, the sun prevailed and a great trip was had by all. Craig McCarthy assembled an able group of both experienced and novice river runners for this 5-day river adventure.

A long, bumpy, and somewhat muddy road took us to Sand Wash, where after a night's sleep we assembled our gear and headed off. Day 1 was a long, flat float (except for the hearty paddlers!) to our first night's campsite at Jack Creek. Needless to say, at 16,000 c.f.s. the river was pretty pushy, and did help us along on the flat water stretches. The nearly 30-mile day provided ample opportunity to enjoy the beauty of Utah's deepest canyon.

Our second day gave us fun runs through Steer Ridge Rapid (where Powell flipped his boat, the Emma Dean in 1869), followed by Surprise and Rock Creek Rapids. We realized that we had entered the Realm of River Gods, and the power of the water was fully in charge. Along the way, we stopped to reflect at ancient petroglyphs, and ponder their hidden messages.

Camping near Rock Creek gave us a chance to explore the well-preserved ranch that Dan and Bill Seamounton established in the early 1900's, walk amongst the buildings, and brush past ghosts of long ago. At over 5,000 feet deep, we are now deeper than the Grand Canyon, and can only marvel at its Permian depths.

Day 3 was our shortest day, with a few fun rapids before ending up at Train Canyon for our campsite. Craig, Karen Hansen, Jeanine Kuhn, and I hiked up a rock slope and were rewarded with a great view high above the winding river. Evening brought the first ever game of "Zinfanball", a name Bob Straub coined after we inflated an empty wine sack. The objective was to keep the Zinfanball in the air as long as possible, volleyball style, as we all sat in a circle. This was certainly a highlight of the trip as this group of finely tuned, somewhat-athletically endowed river rats stumbled over each other while George Yurich slept like a baby on his boat.

Day 4 brought a 6:30 a.m. breakfast call (and a near-lynching!) after Connie Miller delegated breakfast duty to some early risers. We were then off for 17 miles of some of the best rapids yet, including Wire Fence and Three Fords Rapids. Afternoon brought us to our last camp at Rabbit Valley, where at first a brief rain storm threatened to blow our camp away. Fortunately, the weather cleared, the sun shined, and by the warmth of a camp fire George, "Skinny Bob" Hannon, and others kept us laughing with their jokes.

We'll all remember the last day as having the best rapids of all, especially at Coal Creek, where we took time to take pictures of the rafts and kayaks narrowly skirting the big hole there. From there we shot through Rattlesnake and Nefertiti Rapids, where we stopped to eat lunch and pay homage to the queen.

The hardest part of the trip came at the end, when we knew the trip would end. A river trip has a way of bringing out the best in people, where they can have a chance to be themselves, pitch in, make new friends, and take time to reflect on the world around

them. Many thanks to our able boat captains and work crews who made the trip successful. Special thanks go out to capable leaders like Zig Sondelski, Carol Milliken, George Yurich, Vera Novak, Mike Budig, and Craig McCarthy.

Jeanine Kuhn wrote the following poem, in which she does a wonderful job of recapping our feelings about our trip together:

We met at the boathouse and packed our gear
Gathered together, final words to hear.
From the "great one", our leader who gave us the plan
Of where we would stop for use of the can.
We arrived after midnight, but no one was worried
We slept, ate breakfast. No one was hurried.
River time set in and right from the start
Everyone was affected, all twenty took part.
As the river weaved round and changed its ways,
We became bonded in a matter of days.
Bonded with the river, its rapids and glory
Bonded with each other as each told his story.
Defenses disappeared just as water met land
Moments were shared and thoughts did expand.
Five days on the river and everyone grew
It changed my life as I took home a part of you.
- Jeanine Kuhn

From myself, Paul Meyers, and Karen Hansen, river runners from Minnesota, we would like to thank the Wasatch Mountain Club and our fellow Desolation/Gray Canyon companions for allowing us the opportunity to share a part of your magical world.

Be safe, and keep the dry side up!

Metal, Rubber, Snow, and Dirt

By Stacy Yamasaki

With skiing still available at the higher resorts, this year has certainly had atypical weather for outdoor activities. By now, typical comments are directed towards heat and dry conditions. Well, the "elements" made this Brian Head mountain biking weekend (July 8th and 9th) a memorable trip for the few, the proud, and probably crazy. The pre-ride meeting was held late Friday night at the Brian Head Hotel. While some were snoring, others bashed out the itinerary for the following day.

After an early breakfast, one squadron started out for a ride to the "Twisted Forest." The other went for an exploratory ride on the "Scout Camp Loop." The initial climb up the jeep road was the usual grunt, but as soon as we entered the single track we hit the white stuff. No, it was not Wasatch powder, as one cyclist discovered, but snow--just soft and deep enough to sink a 26" wheel up to it's hubs! After some interesting Cyclo-cross maneuvers, the trail became rideable. We rode through tall aspens and evergreens. There were several lush meadows that made for a very scenic ride. The lunch break was at the banks of a small lake with floating logs. The return trip was equally challenging with several stream and "lake" crossings.

After lunch, the hearty went for a ride down the right fork of Bunker Creek. After meticulously arranging a car shuttle and riding up to the downhill, we found ourselves cruising down a moderate single track. Due to the large elevation drop, the trail started out in an evergreen forest with a slightly rocky terrain, with a few "steps" and gradually switched to aspens. Further down was grass and sage as the trail became another jeep road with some nice water bar bumps. The terrain was just right for some great downhill riding. When we returned to the cars, the owners of the general store accosted Frank and Chuck about parking in an unmarked lot while the rest of us quickly escaped. The cultured made it (barely) to Henry the VIII at the Shakespear-

ean festival. It capped their evening and provided a nice napping spot for a few of the group. For the rest, it was the hot tub, dinner, and a road trip to Parowan at almost midnight for some chocolate-marshmallow-banana shakes at the Dairy Freeze! Jim convinced them to open up again to buy some licorice, even though they'd just closed! Being a very independent group, Sunday proved to be even more interesting as the squad split into three groups. The "real" riders went on to Strawberry Point for some hill training, quit after 6 miles out and headed home. The second group rode the Scout Camp loop backwards, 9 miles and somehow uphill the whole way. The "gee what should we do" group decided to ride Twisted Forest. After a steep climb, this double track wound its way up and down through a fir forest with a few muddy areas. No problem for a bike, but word has it that a local forest service ranger and a 4x2 fared worse... Once at the Twisted Forest cutoff, we stashed our bikes and hiked into a wash where there were old Bristlecone pines. As the name implies, these trees had unusual shapes and looked like something from a Disney cartoon! Continuing down the trail, we came to an overlook that allowed a panoramic view of the Cedar Breaks National Monument. The eroded red, purple, and cream colored cliffs from this vantage point were spectacular. After the rides were finished, the final meeting was back at the Dairy Freeze for what else but...more shakes! Who else would go on such a trip but Tony Ackerman, Frank Bernard, Roshan Bhojavani, Curtis (Troll) Camp, Carrie Clark, Vic (Breakdown) Garside, Chuck Howisey, Leslie Morgan, Linda (Turbo) Palmer, Barb (She Beast) Petty, Jim Piani, Audrey (Gab) Rindfleisch, Hardy Sherwood, Lucy Shoell, Chris Winter, and Stacy Yamasaki. Hats off to "Turbo" for leading a great trip!

Why Won't They Listen To Us?

- Hundreds of Utah citizens spoke up at hearings across our state and asked them to protect our unique wilderness lands.
- Thousands of us signed petitions supporting the 5.7 million acre citizens' proposal.
 - And nearly 7 out of 10 Utahns who called or wrote them said:
"We want the remaining 5.7 million acres of Utah wilderness protected not only for us for today, but for our children tomorrow."

Our Voices Fell On Deaf Ears.

These Utah politicians ignored the voices of citizens from across our state. Their plan throws away 4 million acres of Utah's spectacular wilderness. Places like:

Blue Table Cliff, Wild Horse Mesa, Diamond Breaks,
Moonshine Draw, Little Goose Creek, Cheesebox Canyon,
Fortymile Gulch, Silver Island Mountains, Big Hollow, Granite Peak.

The Salt Lake Tribune called the politicians' plan "a disappointment" that is not "protective enough of Utah's precious wild lands." And according to a recent Deseret News poll, only 26% of the citizens of our state support it.

Don't Let Them Take Our Land!

They're counting on us to give up. Don't! It's our wilderness. It's our natural heritage. Don't let them hand it over to the oil and gas industry, big mining corporations and others who would ruin it. It belongs to us and our children. Together we can protect it.

Here's what you can do TODAY.

I **OPPOSE** the shortsighted wilderness bill supported by you and introduced in Congress by the Utah delegation. The bill leaves out almost 4 million acres of unique wilderness land that the citizens of Utah and your constituents want to protect. Please listen to your constituents and reconsider your support of the delegation's plan.

Sincerely, _____
