JUL 1 WED

HIKE: WEDNESDAY EVENING HIKE (MOD)

Organized by various WMC Members . Wednesday

evening hikes are good qualifying activities for prospective members (bring your WMC application form for organizer's signature) who like a moderate paced hike. You'll still be able to enjoy the scenery and visit with club members while hiking. We'll return around 8:30 pm. Bring: 10E's (The Ten Essentials--refer to Hiking Director's Message) and carpool\$\$\$. Meet by 6:30 pm at the Little Cottonwood Park & Ride.

JULY 2 THUR

CLIMBING - GATE BUTTRESS- 6:00 at the parking lot 1 mile up Little Cottonwood Canyon. This is fine granite to get ready for the next City of Rocks trip. Call Alan Lindsay (942-0641) or Frank Stock (366-4661) if you have questions. **HELMETS ARE REQUIRED**

JULY 2 THURS

ROAD RIDE: UPPER BIG COTTONWOOD CANYON (MOD, 20+ mi) Elliott Mott, with the Bonneville Bicycle Touring Club, will meet at 6:00 pm at the Cardiff Fork parking area in Big Cottonwood Canyon (8.9 mi up the canyon, north side of road) for an after work ride to Brighton. Pace: individual preference. Spin at a spirited pace if you're interested in a training ride, or at a more relaxed social pace. Riders will regroup afterward for a social and dinner hour if they want to. For more info, call Elliott at 968-7357.

JUL 2 THU

HIKE: THURSDAY EVENING HIKE (MOD/Fast)

Organized by various WMC Members. Thursday evening hikes are fast paced adventures, and are limited to members of the WMC only. We'll return around 8:30 pm. Bring: 10E's and carpool\$. Meet by 6:30 pm at the Big Cottonwood Park & Ride.

JUL 3 FRI

HIKE: TWIN LAKES PASS FROM BRIGHTON (NTD 3.4)

JUL 3 THRU 5 FRI-SUN

BACKPACK: BEAR RIVER BLACKS FORK (UINTAS) (MOD)

Scott Patterson (963-2263) is backpacking into the Uintas this weekend. There may be snow yet, so you'll have to be prepared! Scott says this trail is generally easy, with one steep section. This counts as both qualifying activities for prospective members.* Call Scott to register, and to discuss equipment and estimated costs.

JUL 3 THRU 5 FRI-SUN

CAR CAMP: GREAT BASIN NAT'L PARK PEAK BAGGING WEEKEND (MOD+)

Organized by Jane Koerner (435-750-0051). This is the conditioning trip for the San Juan Mountain trip later this month, but other peak baggers are welcome. We'll camp out and hopefully summit both Wheeler (13,063') and Moriah peaks, depending on snow conditions. Plan on early starts each day, to avoid the afternoon thunderstorms. This counts as both qualifying activities for prospective members.* Call Jane early to register, and to discuss equipment and estimated costs.

JUL 4 THRU 7 SAT-TUE

BACKPACK: TETON MOUNTAINS (MSD) Mohamed Abdallah (466-9310) hopes to get a permit to backpack from Jenny Lake, behind the Teton Range, and come out Paintbrush Canyon. Costs will include group transportation and the Park Entrance Fee. This counts as both qualifying activities for prospective members.* There is a limit of seven participants. There will be an organizational meeting in June, so call early to register.

JUL 4 AND 5 SAT-SUN

TURTLE MOUNTAINEERING: WASATCH FRONT OVERNIGHT AND PEAK BAGGING (MOD+)

Brooke Jennings (424-0677) wants to summit a Wasatch Front 11,000+ peak, but with a new twist. He is going to hike into a base camp at either Maybird Lake or Lake Blanche, and from there do his hiking to either Superior, Dromedary, Twin Peaks, Monte Cristo, or the Pfeifferhorn. This way, he says, these peaks become less than EXT/MSD, and accessible to those of us who can't keep up with the likes of Brad or Cheryl. If you are interested in this type of trip, give Brooke a call.

JUL 4 SAT

HIKE: CECRET LAKE (NTD) "Sam" Kievit (262-6698)

is doing a short, mid-morning hike at Alta this holiday, to a spectacular lake in the Wasatch Mountains. It is the perfect setting for your picnic lunch, and you will get home in plenty of time for holiday plans later in the day. Bring: 10E's, your gourmet picnic lunch, and carpool\$. Meet by 9:30 am at the Big Cottonwood Park & Ride.

JUL 4 SAT

HIKE: FLAGSTAFF PEAK VIA DAYS FORK (MOD 7.8/Scrambling)

Brad Yates (521-4185) begins today's patriotic day with a traditional 4th of July hike up an appropriately named mountain. Bring: 10E's, a lunch containing the colors red, white, and blue, as well as a patriotic flag and carpool\$. Meet by 8:00 am at the Big Cottonwood Park and Ride.

JUL 4 SAT

HIKE: AMERICAN FORK TWIN PEAKS VIA GAD VALLEY (MSD 9.8)

Phil Fikkan (583-8499) is tackling the holiday with a great hike, complete with bouldering and scrambling. You'll still get down in time for your evening July 4th BBQ and fireworks. Bring: 10E's and carpool\$. Call Phil to register.

JUL 4 SAT

HIKE: GRANDEUR PEAK FIREWORKS EVENING HIKE (MOD 4.8)

Organized by Brad Yates (521-4185). Join Brad for his second hike of the day, to get a good seat for the evening's fireworks display. Bring: 10E's (especially the flashlight and a warm jacket), and maybe a blanket to wrap in for a cozy sky show. This hike probably won't get down before 11 pm, so plan accordingly. Meet by 6:30 pm at Skyline High.

JUL 5 SUN

HIKE: DONUT FALLS (NTD 1.4)

Join Kristie Price (942-2291) for a pleasant, short hike in Big Cottonwood Canyon. This is a great hike for beginners and prospective members (bring your WMC application for the organizer's signature), or for people who stayed up too late last night enjoying the fireworks. Bring: 10E's and carpool\$. Meet by 9:30 am at the Big Cottonwood Park & Ride.

JUL 5 SUN

HIKE: MT. AIRE FROM ELBOW FORK (MOD 4.6)

Martin Clemans (968-1252) is staying in town for the weekend, so come on along and make this hike a winner! Martin says the trail is sometimes steep and muddy. Bring: 10E's, plenty of water, and wear good hiking boots. Also bring carpool\$\$ and for the Millcreek access fee. Meet by 9:00 am at Skyline High.

JUL 5 SUN**HIKE: KESSLER PEAK BY ONE OF THEIR MANY FAVORITE ROUTES (MOD 6-7)**

Charles/Allene Keller (467-3960) are long time gurus of Kessler Peak (10,403'). There are several trails to this peak in Big Cottonwood, most of them STEEP. Hopefully they can take you up one of their favorite routes today. Snow will be the deciding factor. You may even need an ice axe! Bring: 10E's and carpool\$\$\$. Since the Keller's have to check out the best route for you, call to register.

JUL 5 SUN**HIKE: BROADSFORK TWIN PEAKS (MSD/Snow**

14.9) Brian Barkey (801-394-6047) is dragging himself away from his little sidekick just long enough to scramble up Twin Peaks and slide back down. The trip follows a trail for the first 2 miles and 2,000', and the last 3 miles and 3,000' are snowfields and scrambling to the 11,330' summit. There is some exposure from the saddle to the summit. Bring: Ice axe is required, carpool\$\$, and waterproof glissading pants with the 10E's will make your hike back down a lot more comfortable. This is a wilderness area, so there is a limit of 13. Call Brian to register.

JUL 1 WED - JUL 6 MON

BOATING - SAN JUAN RIVER - FAMILY TRIP Rising among 13,000' peaks along the Continental Divide in the San Juan Mountains of southwestern Colorado, the San Juan begins its 400-mile journey to its confluence with the Colorado River. We'll be running a portion of the lower San Juan, the 57-mile stretch from Mexican Hat to Clay Hills. Considered as one of the west's best wilderness trips, the Lower San Juan features superb side hikes to dramatic slickrock and Anasazi ruins; the famous Goosenecks of the San Juan, a spectacular, twisting passage between towering rocks of ancient stone; and pleasant Class I-II rapids. We'll hike from the Nebo Loop Road, up to Loafer and around to the top for a great view of the Wasatch Front. Pete estimates 8-10 mile RT (almost all on trail), 3,000' elevation gain, and since the summit approach is from the South, most of the snow SHOULD be gone. Bring: 10E's and carpool\$\$\$. Cheryl Soshnik (435-649-9008) is going to try coordinating two hikes at once today. This trip will hopefully hook up with the Gonzo ridge runners at the summit (see the writeup for the Aggasiz-Hayden ridge scramble). Bring: 10E's, and \$ for both carpooling and the Mirror Lake access fee. Prospective members are welcome on the MOD hike (bring your application for endorsement). There will be a generic carpool at the Parley's Way Kmart in SLC by 8:30 am, or meet again by 9:30 am at the Kamas High School. Bring: 10E's, and \$ for both carpooling and the Mirror Lake access fee. The MSD ridge run is for members only. Call to register and to find out just how early you're going to have to pry those eyelids open.

HIKE: STEWART FALLS FROM ASPEN GROVE

FAMILY HIKE (NTD/Family) Lookie! Another first time hike organizer! Marisa Augnstyn (572-4689) has brought her family to this beautiful location at the base of Mt. Timponogos, and would like to share the experience with the WMC. This is a wonderful family hike, as it is not too long, and not too steep, and it's a fun destination for the kids. Plan on staying a while at the falls, having a leisurely picnic lunch, and letting the kids play at the falls, before heading back. Bring: 10E's, including a special picnic lunch, and \$\$ for both carpooling and the American Fork access fee. Meeting location for carpooling will be the 90th S. Park & Ride. However, this hike is in the Timponogos Wilderness area, so there is a limit of 13 participants. Call Marisa early to register you and your family, or if you have any questions.

AUG 8 SAT

HIKE: CARDIFF MINE FROM CARDIFF FORK (NTD

3.3) Joni Schrage (533-2984) and Roy Prymek (566-4531) join forces for a repeat of his June hike. This hike is 5 miles round trip, and gains 1,660' of elevation. Bring: 10E's and carpool\$\$\$. Meet by 9:00 am at the Big Cottonwood Park & Ride.

AUG 8 SAT

HIKE: TURTLE HIKE TO LAKE BLANCHE

(MOD/Slow) Joan Proctor (474-0275) says this 5.5 mile RT hike will be slowly paced with time to smell the flowers. Trail runners, please choose another hike so the rest of us can dawdle. Be sure to wear hiking boots and carry enough water for a day in the sun. Joan is meeting at 9:00 am, but this is a wilderness area, so you will have to call to register and find out the meeting location.

AUG 8 SAT

HIKE: SUGARLOAF PEAK FROM ALBION BASIN

(NTD+ TO MOD 4.2) Jim Nelson (969-8362) says that

although this is rated a MOD, he is going to take it a little easier today, so that strong NTD hikers can come along. High point is 11,051, with at 1,651' elevation gain. This is probably the easiest 11,000+ peak to reach in the Wasatch, and Jim would like to give everyone a chance to climb it. Bring: 10E's (hiking boots are required), and carpool\$\$\$. Meet by 9:00 am at the Little Cottonwood Park & Ride.

AUG 8 SAT

HIKE: MAYBIRD LAKES VIA RED PINE TRAIL (MOD

4.7) Join Tom Silberstorf (255-2784) as he takes the White Pine Trail to the Red Pine Trail, and then crosses the bridge into Maybird. Bring: 10E's and carpool\$\$\$. Tom will be meeting at 9:00 am at the Little Cottonwood Park & Ride. Since this is in the Lone Peak Wilderness area, the trip size is limited. You will need to call Tom to register before the trip.

AUG 8 SAT

HIKE: RED-WHITE-RED-WHITE RIDGE SCRAMBLE

(MSD) Jan Brain (435-649-8636) explains this hike: Hike to RED Pine Lake, scramble to WHITE Baldy Peak (11,321). Continue along the exposed ridge to RED Baldy Peak, and then scoot down to WHITE Pine Lake. It's a loop trip that begins and ends at the WHITE Pine trailhead. To get you even more dizzy, the WHITE pine here doesn't even refer to a pine, it's the Englemann spruce. Get it? Got it! At any rate, plan on a long day of scrambling and exposure. Bring extra food and water with your 10E's, and carpool\$\$\$. This is in the Lone Peak Wilderness Area, so trip size is limited. Call early to register.

AUG 9 SUN

HIKE: WHEELER CREEK TO MAPLES (SNOW

BASIN) (MOD/Doggie) Brian Barkey (801-394-6047) is offering the WMC a new hike from Ogden. Well behaved dogs are welcome. Bring: 10E's and \$carpool\$\$\$. Call to register, and to find out the meeting time and location.

AUG 9 SUN

HIKE: DOG LAKE FROM MILL D (NTD 3.4)

Patti O'Keefe (973-7984) says she "may" go up towards Dog Lake. That means she may not, too. I guess you'll have to show up to find out. At any rate, she will begin hiking at the Mill D trail, and it will be a NTD. Bring: 10E's and carpool\$\$\$. Meet by 9:30 am at the Big Cottonwood Park & Ride.

AUG 9 SUN

HIKE: DEVILS CASTLE (MOD 6.1/Scrambling)

Don't be fooled by the MOD rating! Mike Berry (583-4721) is taking on a challenging peak, noteworthy for the exposed scrambling route up it's knife-blade summit ridges. It's only a MOD because of it's easy access, being just above Cecret Lake at Alta (3.6 RT miles, 1,520' elevation gain). You should be in good physical shape for this hike, and have some confidence on exposed rock. The thrill of accomplishment when you finally reach the summit makes up for the earlier fear. If the group is

willing, we will continue along the summit ridge and descend via the east saddle, making this a loop trip. Bring: an extra dose of sure-footedness, 10E's, and carpool\$. Meet by 9:00 am at the Little Cottonwood Park & Ride. If you have any questions about your ability and the skills required for this hike, call Mike beforehand to discuss them.

AUG 9 SUN

HIKE: MT. WATSON--UINTAS (MOD 5.2) Join Chris Venizelos (355-7236) to this high peak (11,521') off the Mirror Lake Highway. There will be some scrambling to the summit, but with the trailhead at 10,000', there is only a 1,500' elevation gain. Bring: 10E's, which includes plenty of water, food, sunscreen, and clothing for high altitude. Costs include carpooling and the Mirror Lake access fee. Meet Chris by 8:30 am at the SLC Parleys Way K-Mart.

AUG 9 SUN

HIKE: MT. NEBO (BOTH PEAKS) VIA ANDREWS RIDGE (MSD 14.4) Mark Gilfeather (463-1937) is challenging both Nebo's North (11,928') and South (11,877) summits, including the knifeblade ridge that separates them. This is the highest peak in the Wasatch Range, and involves over 5,500' of elevation gain. Plan on a long day, with scrambling, exposure, and boulders. Bring: 10E's, plenty of extra food and water, and \$carpool\$. This is in the Mt. Nebo Wilderness area, so trip size is limited. Call early to register.

EXPLORATORY FAMILY CAR CAMP (NTD TO MOD) Randy Long (943-0244) is leaving for Nevada on Friday, to camp at the Wheeler Peak Campground. On Saturday, you will hike the Bristlecone Pine-Icefield Trail. Randy says that first timers can turn around at the bristlecone pine grove, while the rest go on to the icefield below Wheeler Peak. Some bristlecone pine trees are thought to be 5,000 years old, the world's oldest living things. Plus, this is the only permanent icefield in the Great Basin, so this weekend should really be great. Randy will be returning to SLC Saturday, ending the official part of the trip. Individuals may stay over Saturday night on their own. Children are welcome. DIRECTORS' MESSAGES

From the Hiking Director

By Cheryl Soshnik

THE 10 ESSENTIALS:

When you browse the activity descriptions this month, you will note that I have included references to the 10E's on every day hike. This stands for the "Ten Essentials": Emergency items you should have in your daypacks at all times. They don't take up much room, but could save a life. The best weather can change rapidly, the shortest hike can take a wrong turn, and the safest person can fall over a cliff. The Seattle Mountaineers created the original 10 essentials back in the 1940's, and since then, other groups have done their own lists. You may decide to carry more than this, but 10 emergency items that you should always carry with you in the backcountry are:

- 1) Map and Compass
- 2) Flashlight with spare bulb and batteries
- 3) Emergency food and extra water (or water purification pills)
- 4) Extra clothes (including rain gear)
- 5) First aid supplies
- 6) Matches in waterproof container
- 7) Fire starter (candle or commercial)
- 8) Pocket knife
- 9) Sunglasses (and Sunscreen)
- 10) Space blanket and/or large garbage bag (orange is best for visibility)

Other groups have added whistle, signal mirror, 50' of parachute cord, or TP.

For a really short hike on a well maintained trail, maybe you don't need all these items. However, they take up very little space, and it's a good idea to just let them live in your pack. The day you really need them just might be the day you forgot that you'd taken them out last time...

The WMC's Wasatch Hiking Map is available at all outdoor stores and covers many of the Club's day hikes. Even though you may be a participant on a Club hike, you should always be aware of your surroundings. You may take a wrong turn and get separated from the group, or you may be asked to go back for help if someone has gotten hurt.

TRIP COSTS:

Another new reference you see this month is for estimated trip costs. I reminded you on every trip to bring carpool\$\$, as well as the various access fees. Remember to compensate your driver, even on short jaunts up Big and Little Cottonwood Canyons. The club's current carpool rate is gas plus \$0.15/mile, or \$0.25/mile for 4-WD roads, split by everyone in the car (including the driver). The governing board is currently looking at this rate, to see if it's adequate. If you would like to be on a committee that is looking at the carpool reimbursement issue, contact Tom Walsh or me ASAP.

PROSPECTIVE MEMBERS:

The final new reference I have included in some hiking activities surrounds qualifying activities for prospective members. Unless specified, day hikes are open to prospective members as one of their two qualifying activities. Make sure you notify the trip organizer that you are not a member of the WMC, and the organizer will sign the activity section of an application for you. Weekend camping trips and backpacks count as both qualifying activities for membership. You will be asked to bring a WMC application and a check for membership dues as part of the costs associated with the weekend activity.

SNAKES ALIVE!

On a final note, be alert for rattley-snakes. They seem to be out in force this summer, especially in the Wasatch Front foothills. One Saturday, there were 3 rattlers each on 2 different hikes. Your legs are best protected by wearing heavy boots and gaiters. Scramblers face the biggest threat from snakes, so be as careful as possible when placing your hands on rocks when you can't see what's up there. If a snakebite does occur, lie the victim down with the injured area below the level of the heart. If you have a cell phone, call for help, or have someone go back

for help. **DO NOT:** Cut & suck, use constricting bands, or place ice or snow on the site. You **CAN** place a cool cloth on the bite to relieve the discomfort, and keep the person calm until help arrives.

From the Membership Director

Carol Coulter

Many, many thanks to Cheryl Soshnik for her assistance with the WMC membership database!

As the old Mac was dying amid fears of losing our database or at a minimum recovering old backed up files, Cheryl built a whole new database format on our new computer, using Excel and Access, and saved the day. Not only did she salvage past information—assisted by Alan Lindsay who pulled the information off the Mac—but she also created new and better data fields for entering all sorts of data about Club members (aren't you glad you know this?). Supposedly self-taught, Cheryl has done an incredible job transforming the database and has made all our jobs—membership, publications, conservation—easier with such quality information at our fingertips. She even promises to tell us how to run the databases so she doesn't have to be there whenever we are doing our jobs. Thanks again, Cheryl. We really appreciate it.

Wanted—members to join the Membership committee!

Because Membership is one of the busiest functions within the Wasatch Mountain Club, we need more volunteer who are willing to assist this fun and interesting committee one to two times a month. We usually spend 1-2 hours twice a month at the WMC office on 11th East, 1390 South processing new and renewal memberships, sending out trial subscriptions, and updating the database. There is lots of support from the dedicated committee members to help you learn the ropes. Your support is needed!! Help plan the new members' party. Learn the names of all the WMC members. And more! Please call Carol Coulter at 277-1043 to volunteer your time.

Reminder—participation in club outings is for members and members in process only!

To participate in the many Club activities, you must be a member of the Wasatch Mountain Club or working towards membership through two qualifying activities. Activity leaders will be checking to make sure that all those attending an activity are currently members or prospective members. Most clubs like ours restrict participation to members only. We too want to make sure that those who are paying, contributing, volunteering time, etc. are the ones who enjoy Club benefits. So, as a reminder, you might want to bring along your Club membership card on upcoming activities. Prospective members, please bring along your application form for the organizer's signature. Thanks to all of you for helping us enforce this Club policy.

From the Boating Director

Vera Sondelski

SIGN UP EARLY! - I've said it before and I'll say it again. Boating involves permits and gear that needs to be reserved a month in advance. Our trip organizers are getting frustrated with the last minute sign-ups. **PLAN AHEAD! SEND YOUR DEPOSITS!** The entire calendar is always printed in the Rambler, so look ahead and reserve your spot. **THANKS!**

DUCKIES - We now have 4 inflatable kayaks for rent. (2 Aire Lynx I and 2 Lynx II). They rent for \$20 for WMC/ \$25 non WMC trip per day. Same rate for the single person or two person. Rental includes helmets and paddles. Life jackets are available as always for \$3 per person per day.

Our policy is as follows: Inflatable Kayaks can be rented as a trip boat on Class I-II level rivers only. On Class III +, they can be rented by individuals (at the WMC rate) who will be screened based on ability just like any other kayaker.

Duckies can be a lot of fun, but they can also tempt an inexperienced boater into bigger waves than they are able to handle. This can be dangerous to the boater and makes it a burden for the kayakers, who are pressed into rescue service. Be honest with yourself, assess your skills and don't take the duckies into water you can't handle. Help us keep the program safe. Wear a helmet, use the buddy system and respect the forces of the river.

From the Lodge Directors

Julie Jones and Bill Hughes

The following activities have been scheduled at the Lodge this summer. We will also schedule Lodge work parties the Saturday mornings and afternoons on these weekends.

July 11	Coffee House
August 8	Old Timers Party
September 12	Scottish Country Dance
September 26	Leaders Party
October 24	Boating Party
October 31	Halloween Party

Some of the work that we would like to complete this summer includes replenishing the wood supply for the fireplace, spring cleaning to include washing all windows and replacing broken window panes, cleaning the stoves, refrigerators, kitchen, and floors, applying wall paper to the upstairs interior wall, painting the bed frames, chinking the lodge as needed, refinishing the floor in the main hall and upstairs sleeping areas, removing or installing the shutters as needed, etc. We would like to involve as many volunteers as possible and enjoy the summer at the Lodge during this process. If the water issues are resolved we may need skilled labor such as plumbers, electricians, later in the summer etc.

We really appreciate the members and friends that have helped with the Lodge. I can't believe the energy, enthusiasm, and creativity that we have in the Club. It's been fun being one of the Lodge Directors and meeting all the people who have been willing to help and make the task so enjoyable. I also want to express a special thanks to Rob Meritt who was willing to serve as the Lodge Caretaker. His willingness to help in anyway, including every work party, showing potential users the Lodge, running errands for needed supplies and services and blowing the snow after each early winter snow storm was greatly appreciated.

We would like to enlarge the Lodge Committee and fill all coordinator positions to better serve the Club, the members, the Lodge and the public. If you are interested in serving in any of the following positions please give Julie a call at 278-4753.

Lodge Caretaker has accommodations at the lodge, takes care of the general maintenance of the building and yard, shows the facility, and assists users with the functioning of the building, etc..

Lodge User Representative takes calls from potential users, schedules all Lodge activities, bills users, and mails user guidelines, creates opportunities for Lodge use etc..

Work Party Coordinator helps buy materials and makes preparations for lodge work parties, attends work parties, delegates work, supervises work and helps as needed to accomplish various projects at the Lodge.

Water Coordinator assists the Lodge Directors in acquiring a permanent future source of clean pure water for the Lodge.

If you or someone you know would like to use the lodge please give Julie a call at 278-4753. If you are a Wasatch Mountain Club member, please ask for the member discount.

The normal Lodge use fees are as follows:

Weddings:	\$300	
One day:	250	Includes weekend and holiday rate.
Half day	150	Monday thru Thursday (not including Holidays) 7 AM to 5 PM or 5 PM to 1 AM

If you have any questions, suggestions, or concerns about the lodge or the planned renovations, please give us a call. Your thoughts and feelings are important to us. Thanks again for all your help and support. We hope you'll come and enjoy the Lodge this summer.

Special Service Day - July 11, 1998. See you at the Lodge (up the hill behind the swimming pool at the Brighton Lodge). Call Bill 273-0790 or Julie 278-4753 for directions if needed.

From the Bicycling Director

Tim Boschert

Time has come that I must relinquish my Directorship to another. I have served the Wasatch Mountain Club in this capacity for over three years now. I will continue to serve as Director through the end of the current term until February of 1999. Changes in my life and family necessitate me to focus energies elsewhere. I thank all who have assisted me and especially to those who served as a trip organizer. I have thoroughly enjoyed serving on the Board of the Wasatch Mountain Club as lodge, conservation, and general club operational needs are a concern of mine.

I implore upon you that I may lead another to serve as the Bicycling Director. Please call me !

Trip Talks

Hike to Greens Basin From Days Fork, 2-6PM, June 7 '98 By Richard Zeamer, hike organizer

Our group drove two-thirds of the way up Big Cottonwood Canyon to Spruces campground, which is on the south side and further on past the campground to the higher lot, where we parked near Days Fork (a roaring stream). There was some light rain and distant thunder. I told them that we would come to snow, and, that when hiking on it, one could easily slip and fall, but everyone remained cheerful.

We started out hiking going up a steep road-trail that led us into and up through the beautiful hill-side woods on the south-side of the canyon, and along Days Fork, a roaring stream that was pouring down the mountain and towards and past us.

Struggling up the steep trail by Days Fork only about a quarter mile, we came upon the beginning of the Green's Basin Trail. This was an even steeper trail. It took us, through switch backs, up and up, and eastwards, on the mountain that is the south side of Big Cottonwood Canyon.

Soon we met the snow carpets and drifts, and our hikers showed good skills in avoiding slides and

spills, and surviving those they did not escape. The trail took us higher and higher, the presence of snow increased. In about an hour we came to level ground. We were in Greens Basin, an inviting meadow in the mountain heights. We enjoyed being there and hiked the length of the basin to the old buried cabin at the far end, and then back.

Within an hour, after leaving Greens Basin, we were back to our cars at the spruces. In spite of some rain and the snow we all enjoyed it. (See photo.)

STANSBURY ISLAND HIKE, Saturday, May 2, 1998 By Randy Long,

Some people think that Stansbury Island is not really an Island, and that's usually true, but when the water is high—this really is the second largest Great Salt Lake island. Only Antelope Island is larger.

The Bureau of Land Management now has a very nice trail on the island's south end, and it served as a moderate hike for this Saturday, May 2, 1998.

The sky was cloudless, (believe it or not!), the lake was a deep blue, it's neighboring salt flats were a brilliant white, the island's desert was a soft brown, and the camaraderie of the group was great,

July 1998

as we started hiking at about 11:00, and met three others at the saddle. We ate lunch at the spectacular view point at the very southern tip of the island. Then when we got to the halfway point, we simply retraced our steps, rather than following the road ways which are quite bleak.

I also explained that the first big canyon that the trail winds into and out of has the cute little name of Tabbys Canyon, (Remember Fido the dog, and Tabby the cat?) , and the only misfortune came on the way home when I had a tire blown out. We were back by about 6:00, and another great Wasatch Mountain Club hike was had by all.

PARTICIPANTS: Conley Adams, Skip Grutze, Joseph Radford, and myself Randy Long the leader.

**TEMPLE GRANITE QUARRY HIKE,
SATURDAY, MAY 16, 1998,
BY RANDY LONG**

This is the very first quarry site right at the mouth of Little Cottonwood Canyon. Granite, (actually quartz monzonite), was used to build the Salt Lake L. D. S. Temple. This was the first time Little Cottonwood Canyon was even known about. But this site was depleted when the temple was only partly finished. But by then another site had been found just about a mile up the canyon, and this second site is the one that can still be used today.

About three or four years ago the Forest Service, Chevron Chemical Company, and the church went together and built the short interpretive trail along with a very easy, but equally nice hiking trail, and biking trail that starts here and goes up the canyon paralleling the creek for about two miles to a gate located just above an old, but still working, and very well preserved water wheel. Water wheels were used largely to generate electricity, but now have almost gone the way of the dinosaur. This whole trail therefore could be considered historic as well as scenic.

This trail was therefore the easy hike for Saturday, May 16, 1998. Designated as a family hike in the Rambler—three hikers met at 10:00, and really enjoyed this still relatively new trail. It seems like one could go around the gate and continue farther, but do to some time constraints, as well as

the fact that I've never done that, we decided to just enjoy eating a leisurely lunch, before having an equally enjoyable return trip.

PARTICIPANTS: Chad Mabey, Vanyo Mabey, and myself Randy Long the leader.

PARTICIPANTS (8) BRAD YATES, JAN BRAIN, CHRIS DALBY, MONTE YOUNG, STU ALDER, CAROL MASHETER, STEVE PRITCHETT, AND JAN UHLIR.

WE MET AT THE LITTLE COTTONWOOD PARK AND RIDE AT 7:00 A.M. TO BEGIN THE HIKE. AFTER INTRODUCTIONS AND A BIT OF CHIT-CHAT IT WAS TIME TO HEAD UP THE CANYON TO THE WHITE PINE TRAILHEAD.

THERE WAS STILL QUITE A BIT OF SNOW RIGHT AT THE TRAILHEAD SO WE WERE AWARE OF THE SLOG-FEST TO BE ENDURED HIGHER UP THE ROUTE ONCE THE MORNING SUN HAD WARMED THE SNOW. I GUESS THIS CAN BE A BLESSING AND A CURSE. KIND OF A PAIN ON THE ASCENT BECAUSE OF THE POSTHOLING, BUT A LITTLE NICER FOR THE DESCENT BECAUSE OF THE CUSHIONING EFFECT IT OFFERS THE KNEES.

WE STARTED UP WHITE PINE, CROSSED INTO RED PINE, CROSSED INTO MAYBIRD WHICH WAS TRULY SPECTACULAR THIS FINE MORNING, AND FINALLY REACHED THE CREST OF THE RIDGE SEPERATING MAYBIRD AND HOGUM FORK EAST. AFTER A NICE LITTLE SCRAMBLE OVER THE RIDGE IT WAS TIME TO GLISSADE INTO HOGUM, HOWEVER BECAUSE THIS SIDE OF THE RIDGE FACES WEST, AND HAD NOT YET BEEN EXPOSED TO THE WARMING OF THE SUN, IT WAS STILL FROZEN FROM THE PREVIOUS NIGHT.

CHOICES, CHOICES. EITHER SLIDE ON YOUR TUSH REAL FAST, MAYBE UNCONTROLLABLY FAST FOR A COUPLE HUNDRED FEET OR FACE THE MOUNTAIN AND DOWN CLIMB WITH YOUR TRUSTY OLD COMPANION, THE ICE AXE. WE CHOSE THE LATTER.

NOW ITS TIME TO SLOG ACROSS THE OPEN SNOW FIELD IN THE BOTTOM OF HOGUM'S EAST FORK TO THE BASE OF THE HEADWALL. THEN UP WE GO HIGHER AND HIGHER ON THE HEADWALL LED BY THE MAN WITH LEGS AND LUNGS OF STEEL, MR. JAN BRAIN. JAN KICKED STEPS ALL THE WAY UP THE WALL TO THE CREST OF THE RIDGE BELOW

PEAK 11,137. WHEN WE HIT THE CREST OF THE RIDGE WE WERE EXPOSED TO THE SOUTH WIND WHICH WAS BLOWING PRETTY HARD SO EVERYONE THREW ON SOME EXTRA CLOTHES.

WHILE WE WERE SITTING THERE WE SAW A COUPLE OF FAIRLY GOOD SIZED AVALANCHES COMING OFF OF THE EAST SIDE OF THUNDER MOUNTAIN. I SAT AND WATCHED THE FIRST ONE SLIDE OVER A CLIFF BAND AND HIT THE SNOW BELOW AND A FEW SECONDS LATER HEARD THE ROAR. IT WAS LOUD CONSIDERING HOW FAR AWAY WE WERE. I WAS GLAD TO BE OFF THE STEEPEST PART OF THE HEADWALL AND RIDGE. A LITTLE SLOUGH WITH THAT WET , HEAVY SNOW COULD BE A REAL PROBLEM.

WE PUSHED ON UP TO THE TOP OF 11,137 AND THEN STARTED BACK EAST TOWARDS PFEIFFERHORN. THE RIDGE CREST WAS CORNICED AND LOOKED BEAUTIFUL. WE REACHED THE TOP. EVERYONE HAD A BITE TO EAT AND WE THEN DESCENDED THE EAST RIDGE WITH A PLUNGE STEP.

GLISSADING WAS DIFFICULT WITH THE SOFT SNOW, ALTHOUGH, WE DO GET A FEW HUNDRED FEET OF ACTION.

THEN DOWN RED PINE AND WHITE PINE AND WE WERE AT THE TRAILHEAD. **NICE HIKE !!!**
