A Display About the WMC at the Lodge:

Frank Bernard is putting together a large (2'X8') photo display (under pexiglas) for permanent display at the lodge. A portion of it will be devoted to photos and articles about the original construction of the lodge, the kitchen, and the Goodro and porch additions, with the remainder for photos of reasonably current activities of the WMC members—hiking, climbing, skiing, snowshoeing, biking, rafting, canoeing, kayaking, socializing, conservation activities, yurts, etc. If you have a good photo you would like to submit or a brief, written comment about the construction and maintenance of the lodge, send them to me at:

Frank Bernard
417 Center Street
Salt Lake City, UT 84102
bernfp@aol.com.

I can use color or black and white photos of any size. I will attribute the photographer if you desire, and preference will be given to those who can identify the date, place and participants in the activity. Unused photos will be returned if you include a SASE. The purpose of this is to have available, at the lodge, something about the history of the building, the members of the WMC, and the kinds of activities we participate in. Many people who are not in the club use the building and have no information about the WMC and the lodge.

Climber Email List Established

An email list was created to connect club members who climb. To join the list, send an email to majordomo@haas.dsl.xmission.com containing the text (not subject) "subscribe wmc-climb." You will receive a verification message that you must respond to before you will be added to the list. You can send a message to everyone on the list by sending a message to wmc-climb@haas.dsl.xmission.com. Only messages from addresses that are already on the list will be forwarded to the list. If you have a problem joining or leaving the list, send a message to haas@xmission.com describing the problem.

Adopt-A-Highway; JUL 15th: Meet at the mouth of Big Cottonwood Canyon at 10:00 a.m. Everyone needs to bring work gloves; no one younger than 11 can participate. Anyone who is late cannot start working until Randy gives you a vest and trash bag. Stylish, orange safety vests are required and will look lovely on any participating soul. Color-coordinated trash bags will be provided. If you have questions, contact Randy Long at 943-0244.

HAROLD GOODRO MEMORIAL TIME CAPSULE

Anyone who has ever adventured with Harold Goodro has a good story to tell. A few of the "old timers" will recall the Club's first river trip down the Yampa. It had been raining mercilessly for several days and the river was at the highest level it had been for decades. The dirt roads had turned to muck, and the buses we had chartered kept sliding off the road. Harold was there, with ropes and organizational skills to keep the operation rolling forwards rather than sliding backwards. Throughout the ordeal, he exhibited a sense of optimism that rubbed off on members present. No matter what the conditions, his optimism was always there. Harold was the "good" in Goodro. During the Club's first

extended trip into the Canadian Rockies (which coincided with Karla's and my honeymoon) Harold served as one of the non-imbibing "designated drivers" (Karla was the other) to haul a bunch of tipsy Mountain Club celebrants back to their campsites. During the trip he led the club on several delightful day and overnight hikes and on one occasion demonstrated a technique of cornice removal. He was among a group of Club participants to have been requested to leave the Jasper Hotel for not wearing ties. Many, many more good stories can be told of Harold Goodro. Your chance to tell your Goodro story will come at the annual Old Timer's Party that will be dedicated this year in memory of Harold.

At the party, the club will be assembling a Time Capsule (dedicated to Harold) for insertion into the foundation of the new Annex that will be undergoing construction this season. Start thinking of the Goodro remembrance you would like to share with Club members at the party and with the distant future members who open the Capsule. Type your remembrance on standard or legal sized type paper—preferably pH 8.5 archival type—and bring it to the party. If you have a photo or two, or slides, bring them also. A projector will be available. A group photo, to be inserted into the capsule, will be taken of attendees. Please come early enough to be included in the photograph. If you have any questions related to the Time Capsule call Alexis Kelner (359-5387.)

---Alexis Kelner (Life member)

LEAVE NO TRACE:

It is a good idea to keep your first aid and CPR certifications current. You may find these skills useful in the backcountry, on the highway, at work, or just among family and friends. A possible link to leave no trace would be avoiding intrusive wilderness rescue by mechanized means because you respond quickly and correctly before an injury or situation worsens. Climbers and river runners should consider taking sport-specific training. Any WMC member could benefit from a wilderness first aid course.

--Randy Klein and Gerrish Willis

SEPT 3, 4**MOUNTAIN BIKE: DEER VALLEY RALLY**

The Utah state mountain bike championships! This is a not a Wasatch Mountain Club event; in fact it is an event sponsored by the Park City Cycling Club, but there will be a few "Wasatchers" up there racing. If you want to race and you haven't spotted a registration form at your favorite bike shop, call your "dual citizenship" contact (member of both the Wasatch Mountain Club and the Park City Cycling Club) Craig Williams at 1-435-615-0409. If you are not going to race, but want to experience the race atmosphere up close and personal, come up and help us put on the event: registration, feed

stations, course monitors etc.

BOATING:**JUL 2-3 SUN-MON****Boating: Payette Rivers (III)**

You can always expect plenty of fresh mountain air, exciting white water rafting, and spectacular, alpine scenery on Payette river trips. Bret Mathews will lead this fun-filled, river trip to the Payette rivers that are north of Boise, Idaho. The group will drive up Saturday July 1, raft one section of the Payette river on Sunday, another section on Monday, and the return to Salt Lake City on Monday, July 4 in plenty of time to catch the fireworks. Bret has reserved a very spacious campsite at the end of the beautiful Hot Springs campsite for the group's camping. Yes, there really is a hot spring next to the river within a few minutes walking distance from camp! Participants on this trip should have some boating experience by having at least the beginner trip in May under their belt or perhaps another river trip or so from previous years. A

\$50 deposit is required to reserve your space. Adults Only. Bret Mathews 801-273-0315, bmathews@cabletron.com

JUL 8 SAT**Boating: Jordan River Cleanup (I)**

The Jordan Clean Ups have been very enjoyable trips for those who have participated in past years. We paddle and pick; paddle the canoe and pick up all kinds of stuff we find in the river. Shopping cart retrieval is the greatest challenge. We off-load them on the road and go get more. We also have a nice lunch at the International Peace Gardens. Do your share to pay

He plans to meet at about 11:30 a.m., but call or e-mail by Saturday night for the meeting location, as this is a wilderness area hike. Great views of Lake Blanche, Dromedary, and Superior are to be had. There is a little (20-30 ft) of scrambling involved, but is otherwise a "walk-up." You'll work off your lunch, so you'll want to bring some food to keep your strength up for the return. Roger thinks it will take about 6 hours for the round trip, making a full afternoon for those who come along.

Call Cal Osburn (944-4574 before 9:00 p.m. please) to register. Cal plans to hike the Bristlecone Pine-Glacier Lake trail, and there will be time to tour Lehman Cave, see the Visitor Center, take additional hikes, etc.

AUG 25-27 FRI-SUN**BACKPACK: UINTAS (MOD)**

Chris Proctor (466-1905) will lead a group on a Weber River fishing expedition in the Uintas. Plan to hike in on Friday, and be prepared for some scrambling. Bring all of the usual backpacking and camping gear, as well as your fishing equipment.

SEP 1-4 FRI-MON**BACKPACK: UPPER PARUNIWEET CANYON (MSD)**

Register with Scott Patterson (963-2263) for this "Big One." Scott will change plans if the weather doesn't cooperate, because this country is prone to flash flood hazards. The lower portion, which is in Zion National Park, is closed to the public. Plan to leave on Friday, and to return late on Labor Day Monday.

SEP 1-9 FRI - SAT (WEEK)**BACKPACK: GLACIER PARK**

This trip will involve a moderate backpack of about 5 days and a day or two of day hiking and sight seeing in Glacier Park. Call Michael Budig (801-328-4512;

mbudig@mail.com) for details or to register by August 20. Limited to 8 participants.

SEP 2-3 SAT-SUN**CARCAMP AND HIKE: KINGS PEAK IN A DAY (MSD/EXT)**

This hike is very long and demanding, even if you're in great shape. We'll leave SLC at 2 p.m. on Saturday, drive to Henry's Fork CG on the North Slope of the Uintah Mountains with a stop for dinner at Fort Bridger (usually in the middle of a mountain man rendezvous,) and overnight at the campground. We leave the trailhead at 6 a.m., aim to be on top by 1 p.m., and out by sundown. It's 26 plus miles of relatively easy trail with some rock scrambling at the end to bag the summit. You can overnight again at Henry's Fork or drive back home. A volunteer is needed to go up on Friday and get a campsite. Call Frank Bernard 533-9219.

SEP 8-9 FRI-SAT**FAMILY CAR CAMP: UINTAS (NTD-MOD)**

Randy Long (943-0244) will lead to Scudder Lake (NTD) and on to Wilder Lake (MOD) for those who wish. The wilderness area group limit of 13 is applicable. The group will camp at the Beaver View Campground on Friday night, and do the hike(s) on the High Line Trail the next day. Bring money for the Mirror Lake Highway and camp fees. Also expect cold temperatures. Insulated parkas may be needed for both the camp and the hike. The views of the Duschesne River and several 12,000' peaks will be spectacular. Randy must return home Saturday Evening, ending the WMC activity, but feel free to extend your stay on your own.

OCT 4-8 WED-SUN OR OCT 6-8 FRI-SUN**GRAND CANYON RIM-TO-RIM WEEKEND (NTD to MSD+)**

Start getting your knees in shape for this fall's Grand Canyon weekend. Actually, there are more options than just the rim-to-rim hike. For the MSD+ crowd, we offer a 3-day rim-to-rim-to-rim (one day rest between hikes.) For those who may not be able to make it rim-to-rim in one day, I have applied for a camping site at the Bright Angel Campground (don't know as of press time if the permit has been granted yet.) For those who don't think they even can make it to the bottom and back, we need shuttle drivers . . . you will be able to day hike to Indian Gardens (MOD) or on other scenic trails along the rim (NTD.) So, basically, we are offering something for everyone. Since we need to reserve campgrounds on the North and South Rim, and several people have requested hotels on the South Rim after exhausting themselves by hiking 24 miles and 6,000', advanced registration is necessary. There will be a planning meeting in September to determine hiking groups and car

pools. Call Cheryl Soshnik (435-649-9008) ASAP if you are even thinking of doing this hike in October.

TRIP TALKS.**Mineral Fork Canyon:**

On April 2nd we went for a great snowshoe in mineral Fork Canyon. Well, actually it was a hike, as the snow conditions did not call for snowshoes. An elevation gain of 1400' or so and five Brian Barkey miles round trip. Not bad for us girls (my second trip with the club) Rena Jense, Carla Raymond, Jerry Smith and the boys, Zig Sondelski, Vince DeSimone, and Eric Biederman. I don't

Picture of mineral fork hike

think the boys stopped once for a break, and by the time us girls reach our lunch spot, the boys were almost done and heading back down. They were very patient with us on the way, but we felt like Vinny; you know, when his girlfriend stomps her foot in "My Cousin Vinny" and says my clock is ticking. All in all, it was a great time and a beautiful place as you can see by the picture (our only break.) So, now I understand the true meaning of NTD: Not Too Daring, Not Too Dangerous, and Not Too Death Defying.

---Rena Jense

Exploratory - Peak 7584 and beyond:

The Affleck pack followed their beta leader past the start of the trail. Blame had to be place elsewhere and so Leslie, with her 20+ years of WMC exploration, was chosen. Cassie dutifully marked altitude after Leslie's keen eyesight read Jim's GPS. After back tracking 50 meters, we were off. Soon an Alpha pack of Leslie, Cassie, Monty, Karen, Irina and Carol was formed. This would be the Lookout Peak attack group. Jerry was with this group until our wilderness crossroads at 6780. Here the trail from Little Mountain merged with the Pioneer trail from Affleck Park down to Killyon Canyon. The trail north was ours - through the flowers to the ridge above. The Alpha group was off, leaving the scenic panorama and flower sniffing to the Beta pack of Arlenne, Dave, Margaret, Linda and me. Having stayed on the trail, we by-passed our destination of Peak 7584. Linda, taking in her second WMC activity, and Margaret stopped at the "Saddle 7620" and sat in the flowers and watched the terns swoop and climb. We stopped at "Saddle 7860" about 200 meters away where the trail met the ridgeline. Dave spotted a hummingbird feeding on the indian paintbrush. We could see the alpha pack attacking "False Lookout" and walk the ridge out of sight. Each was identifiable by unique markings—Monty wearing a hat and Karen with black shirt, pack and longer hair. While Dave and Arlenne were scooping them, Arlenne saw a "sneaky deer" slip behind Carol and down into Killyon Canyon. On the return we stopped at Birch spring that still had a flow and watched some non-poisoned Bonneville cutthroat feed. Dutifully, the alpha group called to check out and all were accounted for. The trailbreakers were Dave Trask, Arlenne Boudreau, Karen Burgoyne, Linda Moore, Cassie Baddowsky, Irina Martley, Margaret Strickland, Monty Gully, Carol Anderson, Leslie Woods, Jerry Hatch, and Jim Gully.

Lodge Director's Message

The snow has finally left the lodge for the summer and the improvement project has hit high gear. The amendment to our Special Use Permit to trench and build the water and sewer lines was ready to be approved with the retyping of the water agreement when the melting snow runoff caused a delay. Both the sewer and water lines cross small runoff tributaries that need Stream Alteration Permits approved before the amendment can be approved. This process could take a month; by which time the runoff tributaries will probably be dried up and no longer in existence. Our representative from the Forest Service was very helpful in evaluating this situation and documenting the areas of concern with photographs and filling out the permits, which he submitted to the Utah State Engineering Department. The contractor who we awarded the work on the lines first made us aware of the possible need for the permit. The lodge committee chose this contractor from the four bidders because of his extensive experience in Big Cottonwood Canyon and his knowledge of the rigid specifications for the sewer line. The delay in the approval and construction of the lines will not affect the construction of the lodge addition, which is still on schedule.

The amendment to the Special Use Permit, for the addition to the lodge, was submitted to the Forest Service on June 2 and is currently being reviewed for approval. The full-scale, detailed drawings will be delivered June 16 for review by the Forest Service architect (located in Ogden.) These same drawings will also be submitted in the next couple of working days to Salt Lake County to obtain a building permit. The lodge improvement committee, with the help of Bob Meyer, interviewed five contractors for the general contractor position and chose one, with extensive experience building log homes, for further evaluation. We will tour the lodge with this candidate on June 16 to make sure he understands the full scope of this project and feels comfortable about the job. He indicated during the interview that he could produce a bid in two weeks and start work within a month. In the next two weeks we will be receiving detailed cost estimates from the architect and the general contractor. With this information we can negotiate the least expensive contract with open access to all of the subcontractors bids. The contract with the architect, David Triplett of Coopers and Roberts, was reviewed and signed after the interviews and this firm will oversee the construction to completion.

Thanks again for all those who have responded to e-mail questionnaires and have brought us positive solutions to complex challenges. Every bit of input has been greatly appreciated and helped to bring this project closer to completion than it has ever been before. We are finally seeing the light at the end of the tunnel now that it is time to turn this over to the general contractor and the architect and because of all your great work, it is not an oncoming train. This is one of the nicest times of the year to come up to the lodge.

We are having an **Open House/Work Party on July 8th**. Everyone is welcome to come and enjoy the lodge and if you feel like working for the day you will receive a \$50 off certificate toward your next lodge rental. As an added bonus, all workers receive free admission to the Coffee House that evening, along with free overnight lodging.

Applicant Agreement, Acknowledgment of Risk, and Release from Liability

VOLUNTARY PARTICIPATION: I acknowledge that my participation in any WMC activity is voluntary. No one is forcing me to participate.

ASSUMPTION OF RISK: I am aware that WMC activities involve risks, and could result in injury, illness, death, and damage or loss of property. These dangers include but are not limited to: the hazards of traveling in remote areas without medical services or care, the forces of nature, the inherent dangers involved in participation in sports, wilderness travel, and social activities, and the negligent actions of other persons or agencies. I understand that all activities should be considered "exploratory," with the possibility of unexpected conditions and route variations. In order to partake in the enjoyment and excitement of WMC activities, I am willing to accept the risk and uncertainty involved as being an integral part of the activity. I acknowledge this risk, and assume full responsibility for any and all risks of injury, illness, death, or damage and loss to my property.

I verify this statement by placing my initials here: _____

PREPARATION: I understand that it is my responsibility to evaluate the difficulty of any activity I participate in, and decide whether I am prepared by having the experience, skill, knowledge, equipment, and the physical and emotional stamina to safely participate.

LEGAL FEES: Should it become necessary for WMC, or someone on their behalf, to incur attorney's fees and costs to enforce this agreement, I agree to pay WMC reasonable costs and fees thereby expended, or for which liability is incurred.

INSURANCE: I certify that I have sufficient insurance to cover any bodily injury or property damage that I may incur while participating in any WMC activity. If I have no such insurance, I certify that I am capable of paying for all such expenses and liabilities.
