JUL 14 SAT - Lodge Work Party Meet at the lodge around 11:00 AM. The lodge is undergoing great changes, with the addition of an annex for showers and toilets. This makes the upkeep of the original structure as important as ever. Some of the jobs that are on the agenda are: the sealing of a hole by the fireplace that the critters like to use for lodge access, rebuilding the threshold at the main entrance, assessing the state of the white refrigerator and either fixing it or removing it, and either cleaning the chimney for the wood stove in the kitchen or sealing the stove door shut so it cannot be used. An assessment of the condition of the mattresses on the beds upstairs will be made, and unacceptable mattresses may be removed. We have a need for a skilled locksmith, some reinforcement of the floor is needed, and this may be a good year to re-varnish the lodge floor. If you have the know-how and/or the materials that can help get these jobs done at the Jul work party, bring 'em on! Vehicles that are capable of hauling away large items over the dirt road will be needed. A lunch will be provided, and free admission to the IAMA coffeehouse that evening is part of the package. Call or email Alan Brennan (651-0939, owluna@hotmail.com) with your interest in any aspect of the lodge, lodge maintenance or lodge construction.

AUG 4 SAT DAY HIKE: AMERICAN FORK TWIN PEAKS (MSD 9.8). Roger Lester (467-9401, MountaineerRog@aol.com) will be tackling a major peak this Sunday in his series of afternoon hikes. Last year's AF Twins hike was so popular, he wants to do it again! He plans to meet at 11:30am at the Little Cottonwood Canyon Park and Ride to carpool up to the Snowbird parking lot. The A.F. twins are the highest summits in Salt Lake County and provide a great view of Mineral Fork, Mt. Timponogos and the Little Cottonwood ridge out to Lone Peak. Roger is considering an alternate route, depending on interest when the group forms. The classic route follows the Gad valley lifts into the talus and scree below the Twins and the alternate would go by the top of the Gad 2 lift on the way to the White Pine ridge and ascend Red Top Mountain for a three peak experience. As with the earlier afternoon hikes, you'll work off your lunch. So, you'll want to bring some food to keep your strength up for the return. Roger thinks it will take 6

hours to make the round trip, making another full afternoon for those who want to avoid yard work on yet another Sunday.

Also be sure to bring plenty of water and some munchies to eat while you draw or paint. Wasatch Mountain Club Needs You to Volunteer

We have a Lodge Director!! Alan Brennan has agreed to serve the club this year as Lodge Director. Thanks, Alan. It's a lot of work, keeping the historic old building in shape, and working on the improvements we are making, and he needs your help!

We need five or more volunteers to help on each of the following lodge construction projects:

- ✓ Installing insulation
- ✓ Installing sheetrock and wall-board
- ✓ Painting and staining
- ✓ Removal of Goodrow Annex
- ✓ Removal of snow/straw/plastic from slab to resume construction

Experience is helpful, but not required! Instruction and meals will be provided.

We need material: Construction materials such as insulation, sheetrock, bathroom fixtures, lights and paint are needed to help our funds go farther. If you can contribute some of these, have surplus materials you think we might use, or know of companies that could be approached for material contributions, please call: Zig Sondelski 801 292-8332, 299-6623 or email zgsonde@ppco.com.

LODGE DIRECTOR'S MESSAGE

\$16,000

Sixteen thousand dollars. That's what your time and effort is worth to the Wasatch Mountain Club! Work is underway on the bathroom addition to the lodge, and a contract has been signed for the construction work. There is, however a small problem. The authorized budget for the work to be done and the amount that the contractor requested for the full job left a bit of a gap – and that gap must be filled!

I'm asking for some effort above and beyond the call of duty from members of the WMC. We have negotiated the contract to the authorized budget amount, and that leaves us with sixteen thousand dollar's worth of unfinished work. We can make up this shortfall with volunteer labor and donated materials. It really won't take that much from each individual volunteer, if we can get a large enough pool of volunteers from which to work.

If you have a skill in construction, your help in guiding other volunteers will be much welcomed. If you have no particular skill and are just interested in lending a hand for a few hours each month, please volunteer those hours! Contact these members of our lodge construction committee to express your interest in getting the job done this summer: Frank Bernard, bernfp@aol.com, 533-9219; Zig Sondelski, vrn@xmission.com, 292-8332; Dudley McIlhenny, 801-733-7740, contextny@aol.com.

Speaking of above and beyond the call of duty, I want to thank the following people who helped at the June work party: Robert Turner and Ursula Jochmann, who found the time to help out, as if they aren't busy enough as hiking directors this year! Frank Bernard, who is doing great work as one of the members of the construction committee; Lily Schumann, who did marvelous work cleaning and clearing debris on the terrace, the porch and the foyer; Vinnie Neilson, who is our lodge caretaker and pitched in to help; and Paul Zuckerman, whose effort over the course of Saturday and Sunday in removing the snow, straw and plastic from the bathroom foundation was nothing short of Herculean.

Frank Bernard is going to host a lodge open house on July 4. I don't have the details of what he is planning, but I hope that WMC members will take the opportunity to beat the heat of the valley and head up to the lodge for what I am sure will be a great afternoon.

We have a need for a skilled locksmith. We have some locks for which the keys have been lost, and I would like to have keys made for these locks so that we don't have to replace the locksets. Failing that, perhaps a locksmith would be able to help us replace the locksets at a minimum of cost and effort?

There will be a general maintenance work party at the lodge on July 14. Not all lodge work party tasks require big, burley men, so it would be nice to see a good cross-section of club members come up to help. Some of the more domestic oriented tasks include cleaning the ovens, repairing rips and tears in the upholstery, reparing and painting trim, and generally making the place look hospitable. Many of these small detailing tasks are there for the doing. Remember, just an hour or two in the afternoon after a hike is a very welcome participation.

Other stuff we need at the lodge: The white refrigerator has to be fixed or removed. Any reefer mechanics out there? There are some structural reinforcements I would like to make in a couple places. If there's anyone who isn't afraid of spiders, we need to prop up the floor in a deep, dark corner of the basement. The transom at the main entrance is in need of repair. I won't reiterate the ergonomic suggestions of the June director's message, but I will add an idea I came up with at the work party. I would like to see a picnic table or two placed on the terrace near the barbecue. We could construct these or maybe get a donation?

Probably due to the delay in mailing the Rambler in June, I have not had any feedback about interest in a lodge maintenance committee. I will be forming a lodge general maintenance committee, which will be separate from the existing lodge construction committee. I am asking for help from any interested club members to join me in this committee. Part of the task of the committee will be to phone those WMC members who have expressed an interest in helping with the lodge. This will help organize work parties and get people together when something needs to be done, which would have been very helpful for the June work party, given the lack of a timely June Rambler. The committee will also help me form a general maintenance schedule that may be used as an annual maintenance guide in the future. Please give me a call or drop an email, Alan Brennan, 651-0939, owltuna@hotmail.com, if you are interested in donating just a few hours a month to this most important club service. I hope to have some entertaining and light attitude planning meetings, but I need a committee first!

BOATING DIRECTORS' MESSAGE

We have gotten off to a great boating season! So far we have had eight boating trips. We have also had a first aid/CPR class and a river safety class and an on-the-river river rescue class.. We have a canoe rescue class coming up and hope we have equally good attendance. As boating directors we need your help. To keep an active boating division going we need volunteers.

WANTED: RAFTING COORDINATOR. Experienced rafter, preferably a paddle captain, to help coordinate rafting information, classes, parties and check and see if the trip organizers need any help or advice. Perks: the love and admiration of all WMC boaters. Call Lori Major at 424-2338.

WANTED: CANOE COORDINATOR. Experienced Canoeist to coordinate classes, canoe trips, parties and to check and see if the trip organizers need any assistance. Perks: the love and respect of all WMC boaters. Call Lori Major at 424-2338

WANTED: KAYAK COORDINATOR. Experienced Kayaker to coordinate classes, kayak trips, parties and to check and see if the trip organizers need any assistance. Perks: the love and respect of all WMC boaters. Call Lori Major at 424-2338

WANTED: Anyone willing to organize trips, classes or volunteer in any way. Call Lori Major at 424-2338

WANTED: Volunteers for a end-of-season boating party at the Lodge. This year we have made safety and education a priority. We have scheduled classes and have been gratified with the great response. We have also been thrilled with our instructors, Joseph Treadwell, Ken and Jen McCarthy and Randy Klein who have or will take time from their busy lives to make sure the WMC boaters have lots of safe fun on the river.

If you want to go boating on a WMC trip be prepared:

- 1 Be educated about the boat you intend to take on the river.
- 2 Be truthful about your abilities with the trip organizer.
- 3 Realize you are part of a team even if you are in a single craft.
- 4 Listen to the safety talk every time you hear it.
- 5 Be prepared and have your own essentials, for example: (a) a class III or V life vest (preferably V) (b) a river knife (c) a river whistle (d) water proof matches (e) sunglasses with chums (f) a hat or helmet (g) water bottles with a carabiner. (h) wet or dry suits on cold weather/water trips (i) Dry bag (j) Sun block, Sun block, Sun block!

When you want to go on a trip, call the organizer **as soon as you find out you can go**. Get your deposit in. This holds your place and allows the organizer to make reservations for campgrounds, shuttles, transportation, permits and meal planning. These deposits go from \$25.00 for a short trip to however much the trip organizer needs to make the pre-trip reservations on longer trips. These deposits are for fixed costs and are not usually refundable closer to the trip date unless a replacement can be found.

ANYONE GET ANY FALL WESTWATER PERMITS? If you want to find out about trips not listed in the Rambler, please sign up for the boaters e-mail list. We list both WMC sanctioned trips and non WMC private trips. This e-mail is for information only, a listing on it in no way implies Wasatch Mountain Club sponsorship of any given boating trip. Remember let's have fun out there and let's go boating!

TRIP TALK

Yahoo! Wild women on the river, in Moab, having more fun than should be legal!

Moab Daily small craft trip, June 16-17

Janice Gully organized a wild-women, adventure-filled small craft trip run on the Colorado River "Moab Daily." Lisa Kendall, Kathy Jones, Diana Baxter and Lori Major joined Janice to paddle one of Utah's most scenic daily river runs by day, and play in Moab at night.

We stayed at Red Valle Homes, Moab's best-kept secret. At RVH you can rent comfy and fully equipped mobile homes that sleep up to 10 people. An added bonus is a pool and hot tub. We did miss the gritty ambiance of a campground, but we compensated with breakfast at the Jailhouse Cafe, hot post-river showers, dinner at Eddie McStiffs, and sleeping on sheets at night. Ahh, no guilt.

We put in Saturday at the Hittle Bottom and started down the flatwater to the first rapids. There we were, a feminine, helmeted bathing beauty flotilla with Kathy on her small row-frame cataraft (aka "The Waterbug"), Janice atop a Pack Cat, Diana paddling a sit-on-top kayak, Lisa piloting a double Riken inflatable kayak, and Lori sporting her Aire Lynx II. The pointy tips (ala Madonna) on the front of Janice's Pack Cat inspired a new name for her craft: "The Material Girl" (a perfect pun for our quilter-boater girlfriend!).

Great fun! We discovered an old time Spanish Mission! It was right alongside of the river! We eddied out to take a look and found not an Old West town, but, Hollywood! That's right -- a movie set. It was a wonderful lunch spot, we left nothing but footprints and took nothing but hammed-up pictures.

After floating down the first few miles we came to the first rapid, Onion Creek--no big deal--and this looked like the biggest rapid on the map. Oh well, it was a day on the river and therefore better than almost any other day and the scenery was wonderful. We got to Professor Creek and realized the map lied. This must surely be the biggest rapid on the river, but we all dodged the holes came through the rapid yelling and whooping. Ida Gulch grabbed us but we all came through upright and happy. Cloudburst presented us with some fun in trying not to get caught in the whirlpools next to the wall.

In the end it was a couple of sturdy laterals at Castle Creek Rapid near White Ranch that first batted Lori out of her duckie and then flipped Janice upside down. Luckily, Lori was able to get back in her boat in time to assist Kathy in a Janice-and-Pack-Cat rescue. The shivering swimmer clambered onto The Waterbug and became a grateful Tube Tart. Lori did a boat-over-boat rescue of the Pack Cat. Lisa and Diana eddied out with throw bags ready to throw. Ken McCarthy would have been proud.

We ran The Daily again on Sunday, having just as much fun except for strong up-canyon winds. We took out vowing to come back again soon for more fun on the river and in town.

TRIP TALK

River Rescue Training Class

June 2 & 3, 2001

Ken McCarthy Instructor. Trip participants/students and their boats; cataraft: Kathy Jones; raft: Janet Embry, Mike Morrow, Tatyana Egan, Louise Mathews; kayak: Rob Heineman; Pack Cat: Janice Gully; inflatable kayaks: Lori Major and Zig Sondelski.

This class is highly recommended and should be taken every 2 or 3 years!

Saturday Morning

Armed with some very precise directions, "meet at the Texaco in Coalville", (Note: there is no Texaco in Coalville), six Wasatch Mountain Club members and two prospective members set out to learn how to rescue our fellow boaters in case of an emergency.

10 a.m. Saturday, Coalville Next to the AMOCO station we met up again at Holiday campground. Here we learned how to set up rope and pulley systems, z-rigs, to safely rescue people and gear. Some of us were having to learn knots and harnesses for the first time. Others had experience and could be amused at our beginning efforts. We all managed to set up workable systems that we hope we never have to use. We all recognize we will probably be called upon to rescue a fellow boater or a wrapped raft with our food on it sometime.

Kayaker Rob Heineman (aboard his trusty craft) makes like a stranded boat as Ken tests the Z-drag system that Rob, Mike Morrow and Lori Major set up to simulate a pinned boat retrieval.

9:30 a.m. Sunday, the Mighty Weber River

We converge on the Weber river put in to blow up duckies and Mike Morrow's raft for our on the water lesson. We had lost Kathy Jones to work commitments. The first lessons came from Ken McCarthy with team instruction for the paddlers in the raft. We have a pleasant float to the rock garden, where we rescued a cedar inlaid canoe (driftwood log) from a rock in the middle of the river. To do this, Mike Morrow sent Zig Sondelski out in his inflatable kayak, with a rope to tie to the canoe, (log), and we hoped to pull the canoe (log) from the rock. Lori Major was sent upstream to warn oncoming boaters of the rescue downstream. Louise Mathews, Tatyana Egan, Janet Embry and Janice Gully were ready with throw bags for a rescue if it was needed. This went well with no loss of life or gear! We were sure we could handle anything!

Our next test came and we were trying to keep a trapped person's head (a driftwood snag) above water. Janice Gully organized a good rescue. We ran a zip line across the river and tried to pull the head up from downstream, it didn't work. If this had been a real person struggling to keep his head above water in current, we had taken too much time, he would be dead. This was a sobering thought for all of us. We all knew someday this would not be a game. We got better at Zip lines and found a two person ducky, with one person in charge of the rope and both persons paddling, could get a line across the river in no time.

Bob, our old friend, from Saturday, was trapped in the river! He had foot entrapment and was struggling to keep his head above water. He needed rescue now! We didn't have time for a Zip line we needed to get to him! Lori Major decided if it was her daughter, she would wade out to save her. Since we were at the top of a mythical class V rapid, we had Janice, Louise and Tatyana and Janet ready with throw bags in case any of our rescuers needed rescue. We did a modified flying wedge to wade out to Bob. This consisted of Mike Morrow in front, Lori Major and Rob Heineman holding on to Mike to weigh him down and Zig Sondelski in the rear rescue position to help Bob, our victim. We were successful and Bob lived to be a rescue dummy another day.

We weren't done yet! We came to a bridge, there was someone trapped below and it was too dangerous to rescue them from river level. Rob Heineman fashioned a rig from webbing and we carefully lowered Zig over the side to touch the water before being slowly hauled back up. We then stopped for some throw bag practice while Ken, Mike and Rob swam by. We all learned it isn't as easy as it looks to toss a rope to a person moving in current. Near the takeout we had our own little emergency, Tatyana fell out of the raft but was quickly rescued. All of us hope our friends in boating take this class so if it one of us out there, they can safely rescue us.

Sevier River

May 27 to May 28, 2001

Trip Organizer: Larry Gwin Participants: Carol Milliken, Lauara Lisk, Janice Gully, Karen de Caussin and Mark Skidmore

After stopping for some power-packed energy food at Krispy Kreme off of University Parkway in Orem, we proceeded to Big Rock Candy Mt. on the Sevier River on Hwy 89 about 10 miles south of Hwy 70. Big Rock Candy Mt. Resort was incredibly gracious. They let us put in right by their gas station, use their facilities and park in their lot for free.

Larry Gwin negotiates the last set of rapids, which was rock-strewn and technical.

Our group of six looked like a mini white-water festival. We had a sit-on-top kayak, (for a limited time), two Aire Force inflatable kayaks and three pontoon inflatables.

The Sevier is one of the few rivers that flow north and the first day was flowing at 290 cfs, according to a river guide. The first mile to 2 miles was pretty much flat water but a good time to warm up. Once the whitewater started it got increasingly bigger. The river was mostly Class II but it was very technical.

There were many hidden rocks right under the surface so you had to keep on your toes or you would be grabbed. There were also some big pour-overs that you had to maneuver through that had sucking backwash to gobble up the unwary boater.

The current could be very squirrely at times with eddies wanting to take you where you didn't want to go. On our first of four runs, the River God grabbed Larry and showed him how cold that water was and he was very glad he wore his wetsuit. As you get close to the take-out, the river really starts moving fast through a fairly technical rock garden. This required a very good application of river reading skills, being able to maneuver on a dime and making rapid decisions.

There is a very nice take-out where you can park a shuttle vehicle about 6 ½ miles north of Big Candy Mt. Resort. We pulled out and had a nice lunch. After that first run, Larry ditched the sit-on-top kayak and paddled tandem with Lauara on her Cutthroat pontoon duckie for our second run.

On our second run Saturday, we put in around 4:45 PM. We decided we had to push this run and made it in about 1 hour and 10 minutes. Mark didn't read a rock right and the River God gave him a little dump.

One of the best parts of this trip was that WMC member Max Synder invited us to stay at his beautiful home in Aurora, about 30 miles away. Hot showers, grassy tent sites, flushing toilets, kitchen and a nuclear power bar-b-que grill made for a really nice evening and breakfast.

On day two our group was reduced to just three boaters. Lauara had to work and Karen and Mark wanted to check out Zion. The remaining three decided to skip the flatwater and put in downstream at the start of the whitewater. It was just as good on Sunday as it was on Saturday. Karen let Larry paddle her rented Aire force inflatable kayak.

A hundred yards short of the take-out on our last run, Janice found another rock and the River God claimed another victim and Larry rescued her paddle downstream of the takeout. All in all it was a great trip. We donated 4 swimmers to the River God so this river ain't that easy.
