Conservation Notes

May 2002
Will McCarvill

As Jim Hansen nears the end of his congressional career, he is pushing a number of bills. One is to establish a mechanized vehicle trail network in northern Utah called the Shoshone trail. Since Utah has over 130,000 registered OHV's, they clearly need a place to place where their impacts can be controlled. On the surface the Shoshone Trail looks ok. Much of the routes run on private lands, and only a few miles of trails currently used for non-mechanized recreation will be converted to motorized. But the language of the bill is unacceptable. Representative Hansen wants the trails to be exempt from any of the normal processes where the public and management plans of the Forests Service can address issues that will arise. As written, the WMC will oppose this bill. Mr. Hansen has also inserted language into an appropriation bill where the military will be granted extraordinary powers over lands in the west desert. The language of the bill will also exempt the military from the oversight and rules that protect our lands. Ironically, the military has never requested the power that Mr. Hansen wants to give them.

The revision to the Wasatch Cache Forest plan has issued, but there is still much contention over what direction the Forest will take. The original plan issued in 1982 when the population of the SLC valley was half of what it is today and mountain bikes and OHV's were unheard of. We now need to incorporate these new forms of recreation and also think about what we want in the Wasatch's when the population doubles again in 20 years. I will keep you apprised during the summer when a series of public forums will be held by the Forest Service to help in the decision process.

Remember, the WMC takes care of the section of Wasatch Boulevard between Big Cottonwood Canyon and Health Rider. We had good help last time, but a few more hands would make the job go in about 2 hours. Help us out on July 13, look for details in the activity section. Besides, it is amazing and amusing what is found by the side of the road.

The service trip with the BLM May 4 and 5 succeeded in checking out the eastern boundary of the Reef WSA in the San Rafael Swell. We now know how to really make this process work and look for more of these activities in the fall when the desert cools. By the way, don't be shy. If you have a BLM WSA or a UWC unit you want to survey step

up and we'll help you out. I am just addicted to the Swell. Thanks to those who helped out. Without you volunteers nothing gets done.

Speaking of the Swell, a process for getting comments on the Emery County National Monument proposal is getting worked out. As more details emerge I will keep you informed.

MESSAGE FROM THE HIKING DIRECTOR

Three warm memories of a March hike on Stansbury Island: a storm that mysteriously split and flowed around our ridgetop lunch spot, sprinkling us with a few flakes of snow and then revealing the sun; a layer of limestone, blue-gray but loaded with pinkish fossils, showing us branches of bryozoans, spirals of cephalopods, curves of corals, burrs of brachiopods; and some wonderful company with whom to enjoy the experience. Isn't spring grand? And it sure is swell to share the spring with the WMC...

I hope that the May schedule is pleasing. By the time you read this, however, we're already finalizing the June schedule and laying plans for July! Our needs for hike organizers are never-ending, and that means that we need YOU to volunteer! Please help out our callers and volunteer to organize a hike or out-of-town trip for the Club. You can be proactive and call me or send me e-mail directly (274-1288 or donn@xmission.com). And you can really help by coming to our committee meetings and helping us to reach volunteers by phone. The hiking committee meeting on May 28th will be planning events for the July Rambler -- that's mid-July to mid-August, the prime part of the summer. Drop on by the office at 1390 S. 1100 East at 7 PM and find out how you can help.

Here's a big thanks to all the volunteers who stepped up to organize hikes for the May Rambler! We literally can't do it without you!

Using the Internet and Shopping for Outdoor Gear.... by Michael Budig

I have found that by using the internet, one can find many useful ways to buy and find information. I will in the future write occasional columns providing some useful advice for useful internet sites- and would appreciate any comments and criticisms- you may email me at: mbudig@mail.com

This first article will concentrate on useful shopping and gear review sites for backpacking and river running. Future articles will include websites to browse for information about backpacking, river-running, skiing, etc and where to find current and anticipated weather, riverflow, snowfall, etc. A lot of useful information can already be found by going to the Wasatch Mountain Club webpage (<http://www.wasatchmountainclub.org>) and going to: links.

As for shopping- of course, we have a lot of great places for outdoor gear here in the valley including: REI, Kirkham's, Wasatch Touring, Wild Rose, Black Diamond, Sid's Sports and Walton Marine among others. Of these, REI and Kirkhams and Wasatch Touring have websites, though the websites for Wasatch Touring and Kirkhams are of limited use and it is probably easier to shop in the stores.(and WMC members get a 10% in-store discount on nonsale items at Kirkhams).

But other websites of use are listed below by category:

Editors note- I recently saw a sign on the counter of a local outdoor shop that said "If you come into my store and ask me for advise and try something that I stock in my store, and then buy it for less on the Internet, you are a thief".

San Rafael Swell Service Trip

May 4-5 2002

Will McCarvill

Two teams were formed with the help of a BLM ranger. Will McCarvill and Sharon Coons started at North Temple Wash and worked north to the mouth of Straight Wash. Martin McGregor, Bill Goldberg, and Bob Peterson started at Spotted Wolf Canyon near I-70 and worked south to the same end point. We had detailed maps from the BLM showing the precise location of signs that had been installed along the San Rafael Reef WSA boundary. Our job was to find these signs, verify that they were still in place, and to document if motorized incursions were penetrating the WSA.

Saturday was a perfect desert day, cool with fluffy clouds. The trip along the reef was a nice sampler of the territory and how unique it is. In general, most signs were in place and were being respected. There were a few canyons, Iron and Old Woman, where motorized vehicles were driving around the barricades and driving into the WSA. I was pleased to see the amount of work invested by the BLM. It had been over 6 years since I had been in the area and the work was definitely paying off. In the early 90's the reef was being hammered by out of control OHV play. Now there were fewer problem areas and fewer intrusions.

On Sunday we hiked up Old Woman Wash, one of my favorite areas on the planet. The interior of the WSA reflected the effectiveness of the barriers and signs. It was just beautiful. We enjoyed finding pictographs, chip sites and petroglyphs on our leisurely stroll up an Emery County highway claim that is so faint it took me years and many trips to find. On our trip back down another road claim we traveled across an open bowl where we found, (and left) broken arrow heads, broken spear points and scrapers left by earlier inhabitants who also appreciated the setting. It was great seeing Indian art that is not spray painted, shot, and defaced by autographs from recent times.

On a side note, I have never seen so little water in the pour off pools and tanks along the reef at this time of year.

Message from the WMC Historian

By Michael Treshow

One of the more interesting contributions made by Dale Green when he was the WMC Historian was his "50 Years Ago" column. The column of course, presumed something was happening that we knew about 50 years ago. The stories were based on trip write-ups. While the scheduled events that were published are of interest, they tell nothing about the fascinating things that happened on the trips. Sadly, I see such trip write-ups are woefully deficient in recent Ramblers! What will I (or maybe some future historian) draw on in 2052? Let's see more trip write-ups, either solicited or non-solicited. Now, onto 1952 and excerpts from a the May Rambler review of the 1952 "Ski Circus" event:
 "Again this year, the air at Brighton rang with laughter as the Petersens and Rogers scored another party hit when they set the fun course for stiff competition...Red underwear with a fetching grass skirt, straight form Hawaii, was in the person of Marian Styles...the hazardous course brought Helen Shepherd in first place...Some say the Shanes were up all night because Jim appeared in his dressing gown and Elfrieda in her formal from the night before. Marilyn White, as little red riding hood, found it necessary to get a drink of water and Joe Rogers was compelled to go to the Lodge for a two minute nap. The skinny ones had no difficulty going between two beautiful aspens growing four inches apart, but Janet R's bustle was a handicap, Lee Jensen had trouble going through the barrel...In the middle of the run the fog moved in and threw Colean Cox's idea for sunbathing out, but Larry's alarm clock kept ringing the contestants through the starting gate at two minute intervals. ...a time not to be forgotten, which included a Saturday evening of dancing and side-splitting games.

BOATING DIRECTORS MESSAGES SECTION

Hey all you boaters and wannabe boaters!

It is official, all those dire predictions about no water you have been hearing from me has been confirmed by Utah's Governor. As we love a sport dependent on water, this poses a problem for canoeists, kayakers, and rafters. What is the solution? We need people to volunteer to lead trips to Southwestern and Midwestern Idaho. See Bret Mathew's Payette trip! They got snow this year! **WE NEED ORGANIZERS!!!!!!** Trips to the Haggerman - Bliss, The Sunshine run (both on the Snake), the South Fork of the Boise, the Payettes, the Lower Salmon would be welcomed. Advanced trips like Beartrap Canyon on the Madison in Montana would be fun. All these places have normal to above snowfall this year. **Don't wait for someone else to organize it ! GO FOR IT!**

Looking for an organizer for an Alpine Canyon trip near Jackson Hole. Come on you know you want to! Good Campgrounds, easy launch, no permit needed, what could be easier?

Please step up and volunteer to organize. We will help you! This is an all volunteer organization and without volunteers we have no program. If you want to do an exploratory trip we welcome it! We have club members with books containing maps and descriptions of Western Rivers. You can do it! To organize a Wasatch Mountain Club boating trip you need to get the information to Lori Major by the 8th of the month PRIOR to the month you wish to organize a trip. If it isn't in the Rambler, and just on the e-mail it is considered a show and go and only WMC members can be on the trip. Non WMC trips are also listed on the e-mail and are clearly marked this trip is not sponsored by the Wasatch Mountain Club.

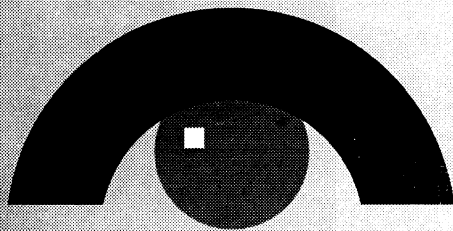

Please call Lori Major at 424-2338 to help out.

If you want to find out about trips not listed in the Rambler, please sign up for the boaters e-mail list at <http://groups.yahoo.com/group/wmcboaters/> We list both WMC sanctioned trips and non WMC private trips organized by club members. This e-mail is for information only, a listing on it in no way implies Wasatch Mountain Club sponsorship of any given boating trip.

Bring your Dutch Oven and impress others with your culinary skill. The Lodge is just across the creek from the start of the Lake Mary trail, and about 300' directly up the hill from the Brighton Lodge at the far end of the ski area parking lot. NEW WMC HISTORY BOOK!!!

ONWARD and UPWARD, by Michael Treshow and Jean Frances

A true labor of love, Mike and Jean have created a masterpiece of local history that every WMC member will want to add to their nightstand collection. From the early days of the 20s and 30s when hikers still yodeled, to the thrilling account of my climb on Mount Owens (see page 134!) this fantastic book chronicles the organization of the club, the early members and escapades (remember the old WMC bus?), the quirks, and strength of character that established the WMC as we know and love it today. **EARLY BIRD SPECIAL, ONLY \$10**, hurry before the price goes up to \$15 this Fall!, contact Gloria Watson (466-9016)

Another Book!! "The Lady in the Ore Bucket" by Charlie Keller (longtime WMC member!!)

The place names, physical traces, and artifacts remaining in the 3 Wasatch canyons tantalize with what they suggest, but do not tell, about the history of settlement and development in the canyons. Charles Keller has extracted a wealth of information to create *The Lady in the Ore Bucket*, a fascinating history of the lumber, mining, and hydropower industries built from the rich natural resources of the canyons. The book is alive with details concerning the personalities, politics, pacts, and peregrinations of local leaders from the white settlement in 1847 through the early 1900s, and will delight any reader with an interest in the magnificent canyons that open onto the Wasatch Front. Available in hardcover from bookstores everywhere!

TRIP TALKS

Nine Hundred and Sixty Pounds
by Tom Walsh

Think about how many backpacks it would take to carry 960 pounds of garbage. Think about how much space that much litter would occupy. Unfortunately garbage and litter is a renewable resource - just ask Randy Long about how a new load appears every 6 months.

For years Randy Long has organized an Adopt A Highway program on the stretch of road from the mouth of Big Cottonwood Canyon to the intersection sometimes known as Knudsons Corner. Not being an exciting mountaineering experience, the litter clean up outing has never been an event drawing lots of participants. It's just one of those gritty jobs that has to be done to keep the community livable and also to meet the Club's responsibility to the Adopt A Highway program that we committed to.

Eight participants met at the mouth of Big Cottonwood Canyon to don their orange safety vests, and get their orange mega-bags, that are about the size of a bivy sack. Everyone dispersed to their own little strip of highway and began cleaning up. Will McCarvill said he was surprised that the item he picked up most frequently was plastic reflectors broken off the concrete edge barriers. There was wind blown paper, food containers, plastic bottles, and a grundle of motor vehicle parts mostly from broken exhaust systems. One person reported finding a porno magazine. Will said there was no hazardous material, except for the morally hazardous magazine. One item NOT frequently found was aluminum cans. Apparently the can-recycling people had already nabbed them for their cash value. Gloria Watson reported that a battered cell phone was picked up. Eric Johnson encountered an unopened (and questionable) bottle of vodka.

Exact weights and measures were not kept, but the Club members averaged two bags apiece. Each bag was estimated to contain about 60 pounds of garbage. Full bags were left on the borrow area for the Highway Department to remove. If they were stacked high and lashed down, the litter bags would totally fill the bed of a full size pickup.

Newcomers to the Adapt A Highway program were surprised to find that they were well off to the side of the road and sometimes behind concrete barriers, so that they felt safe. Motorists tended to just drive by and didn't seem to be paying much attention. However, there were lots of bikers and runners on the shoulder of the road who shouted greetings and their appreciation for the clean up work.

With our Club name on the Adopt a Highway sign, and with our heavy usage of the outdoors, it is only fair that we return something to the community and demonstrate our commitment to maintain the environment. For the Wasatch Mountain Club participants, it was a very satisfying effort. After a couple hours of work the participants could look back at the results and take pride that 960 pounds of litter will no longer pollute and uglify the road to Big Cottonwood Canyon.

River Rescue Class

The word was spread among the whitewater enthusiasts of the west, Les Bechdel was teaching a river rescue class in Twin Falls. The Wasatch Mountain Club Board of Directors, ever aware of the safety of its members, decided to let the boating director make two scholarships from the boating fund. The boating safety class made enough money to send a third boater and in the end four people went, splitting the tuition cost of the last spot between them. Cooperation is what boating is all about! There was a stipulation, you have to go on two WMC trips and share your knowledge with others. Everyone paid their own food, lodging and travel expense.

Friday, we did a pleasure cruise down the class II - III run of Hagerman to Bliss. We found this run, which is only

three hours away, was fun and kept us on our toes in the rapids. We did pull over for some throw bag practice.

That night we celebrated our rescues at Muggers a local brew pub. We found our class had mostly boaters from Utah and they were very experienced. It was a great group. We hope to get some of them on some WMC boating trips.

Saturday was a morning of class work then on to a class III+ rapid where we put into practice what we had learned that morning. We did tag lines and rescued a victim with foot entrapment. We used throw bags and learned how much easier it is to use parachute cord to pull across swift water in a duckie than full size rope. We learned we could use the parachute cord to pull the big rope across. We set up Z-drags and pulled a Suburban and a trailer with it. We practiced knots and learned new ones. We learned even though the boating department has wrap kits, there was some tweaking to do to make the kit better and easier to use.

We were tired and sweaty after that day and we went directly to our hosts house for a homemade spaghetti dinner and told boating stories. No-one dares to compare them to fish stories! About 10:00pm we departed knowing we had another full day on Sunday.

Sunday, We learned about Zip lines, and Tag lines, strong swimmer rescues, and Telfor lowers. After a short stop at a store to pick up sandwiches we headed back to the Snake River for more practical. We set up a Static line and learned to lower a full size raft to a victim. Les said we held the record for setting it up the first time. 17 minutes! WOW! Then we set up a second line called a static line. This is a combination of a strong swimmer/line rescue as you haul yourself hand over hand, with your body in the water with the current pulling on you. It was very hard. Then we set up a zip line where you set up a pulley and loop over the line, hang on and angle yourself against the current and the force of the current pushes you across! What fun! This was day camp for boaters!

This was such an instructive class, we hope to be able to send more WMC boaters to it next year! Participants; Bret Mathews, Mike Morrow, Dudley McIlhenny and Lori Major.

The Moab Daily

Well, we ended up camping after all, don't ask. The weather looked iffy as we drove from SLC. Rain and snow at higher elevations. Hmmmmmm, hope we have a good time. Storm clouds persisted wanting to drive the timid home. Then at Crescent Junction the sky was blue, the sun hot and we rejoiced the river gods had granted this reprieve!

In high spirits we set up camp and went to dinner at Moab brewery and stuffed ourselves. We had a great time and were ready the next morning to boat. The river was down and the rapids were few but WE WERE ON THE RIVER! We met Mike Dege at the put in and learned from him what the river is like in high water. Mike had never seen some of the rocks that were showing. We paddled for a while and the women who had been on the Wild Women on the Water trip last year were on the look out for the old west movie set. A great place to have lunch. After exploring the set and having some cheesy pictures taken we set off again. Near the end we had one real rapid but no-one went out of their boat.

That night was BBQ'd steaks and salads with Bret's wonderful apple cobbler for dessert. The night was beautiful, so as tired as we were we told more river stories and then hit the hay.

We had so much fun the first day, we decided to run it again! We did the short run from Rocky Rapid down. Then it was goodbye to the river and back to Green River and Ray's, of course, for cheeseburgers and milkshakes and more fish, ah, river stories. The best ending to a WMC boating trip!

Participants; Jim and Janice Gully in a cutthroat, Steve Leonard and Dennis (Fuzzy) Simons in an oar rig, Bret Mathews in a single duckie, Paul in a single duckie, Mike Morrow and Jessica Ure in a double duckie, Lori Major in double duckie, Kathy Jones in a baby cataraft, Candy Manly in a single duckie, Mike Dege in a hardshell (real) kayak, and Mike the guy from Mike Morrow's office in a double duckie.

TRIP REPORT – KINGS PEAK 2002

Larry Swanson

The strange snow year worked tricks on the north-slope snow pack. There was plenty of snow and good creek coverage for the famous "creek route" pioneered and generally preferred by the old men of the tour. The granulated snow was bottomless, however, and if one stepped off the track that had been packed in the preceding week by one who is employment challenged a wallow in the deep sugar snow was almost inevitable. The trip in was great with bright sunshine, a few puffy clouds and a light breeze that actually died off on the summit. The route up from Gunsight Pass and across the high plateau was easier than usual as the snow was nice and firm for walking and step kicking. The peak itself was also a bit easier than usual as the wind had removed enough of the snow and had firmed up what there was to make it enjoyable (sort of). No Post holing! The creek route up to Elkhorn Crossing slowed a few if they weren't careful but with all the good coverage at the few normally narrow spots most everyone got to the basin above Elkhorn without much trouble. On the way out the nice warm day had narrowed the track and softened the surrounding snow so it became a bit more of a challenge. There was lots of sport for onlookers encountering folks taking off their skis and struggling to get up while up to their waist in unconsolidated snow. Most everyone reported at least one tip-over on the way out. Those that got out after sundown were treated to the fastest conditions from the campground to the cars that has been recorded in all these years.

All in all it was a great trip. Just enough sting to make it worthwhile. Ten or so pushed on to the summit but the great weather provided equal views and pleasure (and pain) for all.

Twenty-seven folks signed out with ages ranging up to over 70 with a nice mix of long-term regulars and new folks. Two additional had gone in the day before and had camped out. They got going early and had broken trail for most of the way from Elkhorn to Gunsight. I didn't get their names but at least one said he was qualifying for membership. Camping out part way in to provide an early start for trail breaking ought to do it! It is not too early to plan for next year – The last Saturday in March is the perennial date.

The hike is comparable in difficulty to Salt Lake Overlook. Limit: 13.

JUN 22 SAT DAY HIKE: WILDCAT RIDGE (EXT). This is it, my hardies. One of the toughest, longest, scramblyest, rattlesnakeyest hikes in the Wasatch. And people come back year after year. This ridge run is done only once each year, on the longest weekend of the year to take advantage of every second of daylight. At dawn you begin hiking from the Mount Olympus trailhead, summit Olympus, scramble the killer ridge east to Triangle Peak, then continue to the summit of Mt. Raymond and down Porter Fork. You will need to carry lots of water and enough food to go hard all day. The leader guarantees that you will encounter at least one rattlesnake, and get to dangle from many rocks without a belay. An early start and car shuttle are required. Call or email Walt Haas (534-1262, haas@xmission.com) to register. Applicant Agreement, Acknowledgment of Risk, and Release from Liability

VOLUNTARY PARTICIPATION: I acknowledge that my participation in any WMC activity is voluntary. No one is forcing me to participate.

ASSUMPTION OF RISK: I am aware that WMC activities involve risks, and could result in injury, illness, death, and damage or loss of property. These dangers include but are not limited to: the hazards of traveling in remote areas without medical services or care, the forces of nature, the inherent dangers involved in participation in sports, wilderness travel, and social activities, and the negligent actions of other persons or agencies. I understand that all activities should be considered "exploratory," with the possibility of unexpected conditions and route variations. The WMC is not, nor does it provide, a professional guiding service. In order to partake in the enjoyment and excitement of WMC activities, I am willing to accept the risk and uncertainty involved as being an integral part of the activity. I acknowledge this risk, and assume full responsibility for any and all risks of injury, illness, death, or damage and loss to my property.

LEGAL FEES: Should it become necessary for WMC, or someone on their behalf, to incur attorney's fees and costs to enforce this agreement, I agree to pay WMC reasonable costs and fees thereby expended, or for which liability is incurred.

INSURANCE: I certify that I have sufficient insurance to cover any bodily injury or property damage that I may incur while participating in any WMC activity. If I have no such insurance, I certify that I am capable of paying for all such expenses and liabilities.
