## From the President

by Heidi Schubert

Dear members,

Last month I mentioned that non-profit donations by club members to the Salt Lake Foundation were in need of being spent. The Wasatch Mountain Club board will ask the Salt Lake Foundation to donate \$1200 to the Utah Backcountry Volunteers, \$600 to Save Our Canyons, \$600 to the Access Fund, \$600 to the Utah River's Council, \$300 to SPLOR and \$300 to the Salt Lake City Bicycle Collective. It's our hope that these organizations use your contributions to continue their good work to promote and protect the wilderness around us, and support access to this wilderness.

**New Members:** Welcome to the club.

Summer is the most common time a new person will join the club; 37 new members joined in June. Please take a moment to read through some documents on the website – particularly on the hiking webpage – that talk about responsibilities and expectations for participants and organizers of events. If you ever have any doubts about an activity you should call the organizer and just ask. They'll be happy to give you a more detailed description and help you prepare to have a great time. Introduce yourself to some of the old timers when you go on your new adventures. We'd like to know as much about you as you might want to know about us.

**Old Timers: Are we having fun yet?!** Yes we are. I finally went on a boating trip this year. What a hoot. All the extra water this year made for a mighty fine time in the double duckie. Please take some extra time this summer to introduce yourself to someone you don't know. It might be a new member, or just someone you've not really talked to before. We join the club to go outside and enjoy the world, but we stay in the club for the positive social atmosphere. Those of you who donate your time and organize events can do a lot to promote positive social dynamics within groups. Let's make sure it's not so much an individual race to the top as it is a team effort.

**Old Timers & New Comers: COME TO THE PARTY!** August 23<sup>rd</sup> at the Lodge. It'll be a potluck so bring a dish to share (more info in the activity listings). Alexis Keller will bring along some entertainment in the form of historic footage of the Wasatch and WMC members exploring and having fun. If you need a ride please call me for arrangements (801-792-7765).

See you there.

Heidi (heidi@biochem.utah.edu)

## WMC Purpose

(Article II of the WMC Constitution)

The purpose shall be to promote the physical and spiritual well being of its members and others by outdoor activities; to unite the energy, interests, and knowledge of students, explorers, and lovers of the mountains, deserts, and rivers of Utah; to collect and disseminate information regarding the Rocky Mountains in behalf of science, literature, and art; to explore and picture the scenic wonders of this and surrounding states; and to foster awareness of our natural areas including their plant, animal, and bird life.

# The WMC Lodge

The WMC lodge is tucked away in a grove of evergreens at the top of Big Cottonwood Canyon. It is used for a variety of WMC social functions but can also be rented out for personal use on a full- or half-day basis. Renovation to the lodge included the installation of flushing toilets and a shower. Running water! The two dormitory-style rooms on the second floor provide sleeping accommodations for about 20 people. Go to [www.wasatchmountainclub.org/lodge/Lodge\\_pictures.htm](http://www.wasatchmountainclub.org/lodge/Lodge_pictures.htm) to view pictures of the infamous lodge. The kitchen contains a stove and refrigerator, but—you guessed it—it is not stocked with food, utensils or other culinary items. **All** users of the lodge are expected to clean up the lodge after use. Contact Dave & Susan Rabiger at (801) 964-8190 for reservations.

The Lodge needs constant tender loving care, and WMC members have come to the rescue since 1929. Come donate your carpentry skills or just help clean. Call Bob Myers at (801) 485-9209 or send an e-mail to [caretakerwmc@yahoo.com](mailto:caretakerwmc@yahoo.com) to volunteer. Ask for a list of very specific items that need your attention and the hand tools and equipment needed to get the job done. You need not be a member to volunteer. (Warning: Associating with WMC members and participating in WMC activities can become addicting. Improved health, positive attitudes, and long-lasting friendships are also possible side effects.) We look forward to seeing you at the Lodge!

Please give back and keep your eyes open for upcoming WMC Service Days. The most up-to-date activities are posted on the website (see inside front cover).

*Club members can earn up to a \$50 voucher by participating in lodge service projects!*

Please give back and come help the lodge on the following WMC Service Days. Seeing how there is still a lot of snow in the mountains, at least one of these dates will be filled with shoveling snow off the lodge roof and its surrounding area. Other minor interior and exterior repairs may also occur. If you are physically unable to help out, feel free to bring drinks or treats up to the laborers! Thanks so much in advance for your help!

**Single sturdy lodge seeking multiple hard-working hands for great company. Enjoys long days filled with sunshine, sweat, and an occasional deep cleaning.**  
If interested, contact either Lodge co-director.

## Lodge Service Days:

## Directions to the Lodge

Drive up Big Cottonwood Canyon (7200 S) to Brighton Ski Resort. Drive to back of the BIG parking lot (near the Brighton Manor Motel). Walk up the hill directly behind the motel past the boulders, bearing left across the stream and up the trail through the trees (100 yards). Wear walking shoes and carry a flashlight for the hike down.

## WMC Lodge Rental Rates (Day: a 24-hour period)

### WMC Members

October 1 - May 31: \$250/day  
June 1 - September 30: \$300/day  
Weddings and/or Receptions: \$400/day

### Non WMC Members

October 1 - May 31: \$350/day  
June 1 - September 30: \$400/day  
Weddings and/or Receptions: \$550/day

**Note:** Non-member rates were raised \$50/day for reservations after June 1.

## SPLIT MOUNTAIN RAFTING TRIP

### JUNE 20-22

Eighteen club members spent a most enjoyable weekend on the Green River at Split Mountain. They camped at the Split Mountain Campground and made two trips on the Green river putting in each day at Rainbow Park and taking out at the Split Mountain campground which is located within the Dinosaur National Monument.

There were five kayakers and the other 13 adventurers filled two paddle rafts – one captained by Gene Dennis and the second captained by Fred Tripp. The river was running at about 13,000 to 13,500 cfs and there was plenty of excitement provided by several of the rapids. The largest rapid, Moonshine, was scouted by the group before making the first run and it was snarly, confusing and definitely intimidating. Moonshine, S.O.B., Schoolboy and Inglesby rapids all gave the boaters a good ride for their money. In addition to running the rapids the group took time for a relaxing soak at Warm Springs.

The meals were planned and prepared by various group members and were delicious and very much enjoyed by all. Lunch on Saturday was a picnic on the riverbank halfway through the trip and the other meals were all served in camp.

Participants: Gene Dennis, Gloria Watson, Dale Rutledge, Karri Buresh, Dave Rumbellow, Lynn Chambers, Suzanne Schroad, Clancy Cummings, Chris Winter, Daveline Winter, Kindle Leslie, Cindy Wolfe, Chris Robinson, John Aitchison, Jack Eastman, Dave Gobel, Kerry Kelly and Fred Tripp

## Boating Message

### Donna Kramer

The canoe group meets Wednesday evenings to paddle on the Jordan River. All WMC members are invited to the annual Pink Flamingo Party on Saturday, September 6th, at Roger Upwall's house. See calendar for details. Boaters had seven trips in June/July; five of these were multi-day trips on Idaho rivers. Boaters are donating their share of the WMC funds formerly held in trust by the Salt Lake Foundation to the non-profit Utah Rivers Council.

# OLD TIMERS! NEW COMERS! PARTY!!!

**When:** August 23<sup>rd</sup>

**Where:** WMC Lodge @ Brighton Resort (see page 4 for directions)

**Time:** 5p.m. (carpool from BCC Park-&-Ride @ 4:30)

**Bring:** Dish to share and your own beverage (optional item to grill)

**Contribution:** A day at the Lodge Work Party OR  
\$3/member      \$5/non-member

**Enjoy:** Your friends and outdoor family

Whether you're new to the club or have been in for a long time, come enjoy a relaxing evening at the lodge.

If you've never seen the lodge (and many of you haven't), at least take a drive up the canyon and say hello.

It's a great time to slow down, breathe some fresh air, meet people who share common interests, enjoy some laughter, and get away from the hub-bub of city life (not to mention the kids)!

# MAIN SALMON RIVER

Steve Sprowles

**T**hursday June 26. 12 intrepid travelers left SLC around 9:30 AM for the long drive to the put in for a fabulous trip down the main Salmon. Marilyn Smith did a great job as trip organizer, with able assistance from Donna Kramer, who'd run the river several times and provided needed beta. After stops for lunch, and a great dinner in Salmon, we arrived at the Corn Creek put in and camped for the night. Saw a variety of wildlife along the river; deer, big horn sheep, moose to name a few.

**W**e launched around 11 AM with 3 oar rigs, a paddle raft, and a kayak. The river was running pretty high with about an 8 MPH current. Basically, get your boat in the current and hang on!

**T**he Main Salmon traverses a beautiful part of Idaho. We were treated to splendid scenery, a lot of wildlife, and numerous rapids. Some rapids were washed out (Salmon Falls); others were very challenging (Chitam). There were some smooth sections, but a lot of the time, the rapids were more or less continuous. And the swirly eddies and whirlpools were tricky.

**R**iver meals are always a highlight of these trips; let's just say no one lost any weight on this trip! Everyone took their turn preparing the meals, and everyone pitched in to make it all work.

**T**he weather was just about perfect. Generally sunny and hot; light rain 1 night; a little cloudy the last day. The camps were all nice; two of them had resident rattlesnakes to keep us on our toes! One camp had a resident deer who tried to beg like a dog!

**S**adly, all good things come to an end, and we reached the takeout at Spring Bar on July 2, spent the night, and returned to SLC the next day. Looking forward to next year already!

## **Hell's Canyon - A Memorable Trip**

### **Rick Thompson**

HC was wild, a great trip, but with its moments...

- 1) The first day the folks in the paddle raft missed a very tough entry line at Granite, the biggest rapid of the trip, and flipped in a monster hole, dumping five out of the six. Fortunately everybody washed out, so the only casualty was Betty's prescription sunglasses. Sorry about that Betty.
  - 2) An overly friendly dog, a large black lab, in the site next to us on our last night, spent a lot of time in our camp. We gave him a lot of attention, not knowing that his shaggy coat was carrying and sharing the kiss of death--several of us broke out with poison ivy before we even got home.
  - 3) We jerry-rigged a pin for the trailer hitch on the way up, when the tongue and receiver holes didn't line up, and that blew out, dropping the trailer in the road on the way home.
  - 4) One car missed the I-84 turn off at dusk on the way home and drove all the way across to Pocatello.
- No, this isn't all...
- 5) After stopping for one last late gas up, one driver heard a thunk in the rear of the vehicle. Upon checking the side mirror, the gas station pump handle was still hanging from the gas tank hole on the side of the truck, then a block away from the station.
  - 6) The people in that vehicle weren't the only tired ones; lots of people left their gear at the shed, outside in the lot, that night, (well after midnight) so the last one there had to collect it all and take it home.
- Nonetheless, the trip was a lot of fun, and nobody died. That's always a good thing.

## PAYETTE RIVER TRIP

SONYA LLOYD

THERE WERE APPROXIMATELY 30 OF US THAT WENT ON THIS TRIP. IT WAS SO MUCH FUN! YOU REALLY SHOULD BELIEVE ALL THE STORIES YOU MAY HAVE HEARD ABOUT THE TINY TOWN OF CROUCH, ID, BEING AN EYE-

OPENER AND PARTY HAVEN OVER THE FOURTH OF JULY. AFTER CARAVAN-ING FROM SALT LAKE CITY PAST BOISE, IDAHO, WE SET UP CAMP JUST ACROSS THE ROAD FROM THE RIVER. WE SPENT THE NEXT COUPLE DAYS IN THE SUN AND ON THE WATER. NOT TOO HOT, BUT NOT TOO COLD, EITHER. A FEW OTHER PEOPLE MET UP WITH US TO MAKE A COUPLE RUNS WITH US--THE MORE, THE MERRIER ON THIS TRIP. THE HOT SPRINGS (SHOWER AND HOT TUB) BY THE RIVER WERE GREAT. A VIOLINIST FROM THE NEXT CAMPSITE PLAYED US A PRIVATE CONCERT BY FIRELIGHT; IT WAS LITERALLY "AWE"SOME. CAMP FOOD IS ALWAYS DELICIOUS, SO WE ENJOYED OUR MEALS AT CAMP AND ON THE RIVER. MANY "NEWBIES" WERE ON THIS TRIP (INCLUDING MYSELF) AND WE HAD GREAT, PATIENT, EXPERIENCED PEOPLE TO LEARN FROM. A HUGE THANKS TO YOU GUYS!!!

SOME OF US WANTED A LITTLE ADRENALINE RUSH THE LAST DAY ON THE RIVER SO RAN THE STAIRCASE RAPIDS. OTHERS OF US PLAYED IT SAFE AND SET UP CAMP CHAIRS AND COOLERS ON THE BANK AND WATCHED THE EXCITEMENT, OF COURSE A COUPLE PEOPLE WITH THROW ROPES READY. ONE OF THE RAFTS DECIDED TO CASUALLY "PARK" ON A BOULDER IN THE RIVER. THEY PLAYED IT SAFE AND HAD EVERYONE JUMP HIGHSIDE SO THEY WOULDN'T FLIP THE RAFT (GOOD JOB, GUYS!). THE SECOND RAFT HAD NOWHERE TO GO SO PLAYED BUMPER CARS WITH THE FIRST ONE. THE SECOND ONE BOUNCED A COUPLE PEOPLE OFF.

(TO BE CONTINUED ON PAGE 10)

(CONTINUED FROM PAGE 9)

ON OUR LAST NIGHT, I ADMIT THAT IT WAS PRETTY FUNNY TO SEE A LOT OF US GATHERED AROUND THE LAPTOP TO WATCH RERUN AFTER RERUN OF GENE & GLORIA BEING THROWN FROM THE RAFT. THEY WERE DEFINITELY OUR ENTERTAINMENT FOR THE NIGHT. YOU CAN ALWAYS COUNT ON JUSTIN TO HAVE THE ELECTRONICS HANDY!

SPEAKING OF THIS SITUATION, THE COVER PHOTO DEPICTS THIS SCENE...

ON OUR WAY HOME, WHITNEY, BREE, JUSTIN, AND I TOOK A SMALL DETOUR TO HAVE A PICNIC AT SHOSHONE FALLS NEAR TWIN FALLS, IDAHO, AND TO VISIT CITY OF ROCKS VERY QUICKLY (AT OUR COST, NOT THE MEMBERS WHO WERE SPLITTING COSTS).

If you are getting sick of seeing the same people in the pictures, it's your fault. Why? You're not e-mailing pictures and stories to [wasatchmountainclub@gmail.com](mailto:wasatchmountainclub@gmail.com)!!! Everyone is waiting for your picture and story!

## **“Lost Hike of Zion”**

**By Chuck James**

A while back a friend of mine told me about a hike in Zion that should be on my “must do” list. This particular friend is quite the canyoneer & hiker, so I knew it must be an outstanding hike. If you’re at the Zion Lodge looking north you will see a huge monolithic spire reaching some 3,000 feet up (straight up) from the valley floor. At first glance it looks unclimbable except for a serious rock climber. But as it turns out this was Zion’s first constructed hike before Angels Landing and all the rest. It served the adventurous hikers from about 1920 to 1970 – over 50 years.

To access this beautiful spire, a series of ladders and handrails were constructed of which only the remnants still exist and the ever present arrows painted on the sandstone to show you the way up the trail. Without these arrows it would be very hard to find your way up to the top. There is only one place where there is nominal exposure requiring just a few 5.5 climbing moves (very easy) and the use of a small rope and harness for protection. The leader should either be willing to climb unprotected (most rock climbers would not have a problem with this) or bring a few nuts or small to medium cams for protection. The rest of the group could be belayed up by the leader as there are bolts in the rock to belay from.

The hike takes about 3-5 hours to reach the top depending upon your fitness. The park service does not maintain this hike. There is no trail head. The reason the park disbanded the hike was that too many people would freeze up on the metal ladders on the steep areas and then would have to be rescued. Consequently the park service ripped out all the ladders. But there are a lot of moki steps that remain all over to help hike up the steeper areas. Since the hike is steep and offers a mild amount of exposure I would classify it MSD.

On April 26, 2008, we hiked it. The temperature was perfect. (I hiked it a 2nd time on June 20th and the temperature was brutally hot). In April the wild flowers were out in full bloom. Even the cacti were in beautiful colors. The view from the top is incredible, a 360° panoramic view of Zion. Looking down into the valley floor 3000 feet below you can see the buses make their way through the valley. The buses looked smaller than matchbox cars!

My friend was right, it is a “must do” hike. I would highly recommend it to those adventurous enough to try it. The trail can be accessed by following the trail to Emerald Pools. After the trail goes west then switches back east, look for a large metal sign or picture on the right of the side of the trail. From here count 50 paces and then go straight up the hill to the north. You should run into a faint trail which will bring you to the rock wall. If you don’t find the trail just follow the rock wall around to the right. You will come to a shute which is easily climbable. Look for a yellow arrow on the rock at about 20 feet up on the right. Now you’re on the trail – the rest is easy – sort of!

Good Luck and have fun. Remember if you do this in the summer take plenty of water. On my 2nd trip (June 20th) the temperature was 106° and we ran out of water about 1 hour before the end of the hike! I am planning to go again in October of this year. Let me know in advance if you are interested.

## HIKE LISTING & RATINGS TABLE

(Data compiled by Kip Yost 1995)

Time and difficulty ratings are based on a fit hiker hiking in clear weather on dry terrain. Some statistical data are approximates. Your individual results will vary.

### Other Factors (one rating point each)

**B** = Boulder fields or extensive bushwacking

**M** = Round trip mileage in excess of 15 miles

**S** = Scrambling

**E** = Elevation change in excess of 5,000 feet only

**R** = Ridgeline hiking or extensive routefinding

**X** = exposure

**(W)** = Wilderness area, limit 14 (no rating points)

### Rating Difficulty Range

0.1 to 4.0 (NTD)= lightly strenuous

4.1 to 8.0 (MOD)= Moderate to very strenuous

8.1 to 11.0 (MSD)= Very strenuous, difficult

11.1+ (EXT)= Very strong, well seasoned hikers only

## FAINT TRAILS IN THE WASATCH

### 25. Eclipse Mine, Days Fork

The Eclipse Mine, located at the end of the Days Fork road, or trail, is well known to most hikers in the Wasatch. The two large boilers slowly sinking into the collapsed shaft and a number of pieces of machinery resting nearby always stimulate the curiosity of visitors. The story of this mine is the story of three men: Bernard Quigg, William Ottenheimer and Moses Hirschman. A native of Wurtemberg, Germany, the 24 year old

Eclipse mine at the head of Days Fork. The road going up to the mine, now hardly more than a faint trail, runs along the right side of the photograph to the dump in the middle distance.

Hirschman came to America in 1856 and briefly settled in Wheeling, West Virginia. It is believed he immigrated with his younger sister, Caroline, and joined his brother, Henry, in Wheeling. The family then traveled to San Francisco, going by way of the Isthmus of Panama, a route often followed in those days. Once there Henry entered a merchandising business with Ottenheimer, who had immigrated from Germany in 1850 and became a merchant in San Francisco and the California and Nevada mining fields. Ottenheimer married Caroline Hirschman, making the Ottenheimers and Hirschmans one big happy family. Moses Hirschman entered the mining business in Grass Valley, California, and Virginia City, Nevada.

In 1869 Moses Hirschman got married and moved to Montana where he remained until moving to Salt Lake City in 1872. There he became active in the Wasatch mining scene, not

as a prospector, but rather as one dealing in mining property and managing mining operations. He became superintendent of the South Star and Titus mine until 1877 when he moved to the adjacent Flagstaff mine, again as superintendent. The Flagstaff was one of the major mines in the Wasatch; its workings extended well under the divide between Big and Little Cottonwood Canyons and went down many levels, ultimately reaching a ninth level over four hundred feet below the tunnel portal. About this same time Bernard Quigg recorded the Eclipse claim in Days Fork, not too far beyond the extent of the Flagstaff's underground workings. Quigg had not been particularly active in the local mining community, having recorded only one other claim some seven years earlier. It is likely Hirschman became involved in the Eclipse immediately, because Quigg went to Idaho and left his local matters in Hirschman's hands. In fact when Quigg accumulated some mining properties in Idaho he came back to Salt Lake City to form the Quigg Mining Company with Hirschman and his wife as two of the incorporators.

From his work in the Flagstaff, Hirschman recognized the potential value of the Eclipse claim and convinced Ottenheimer to buy it, with Hirschman acting as Quigg's attorney-in-fact in the transaction. As superintendent of both the Flagstaff and Eclipse mines, Hirschman extended the Flagstaff's fifth level in the direction of the Eclipse, where he started sinking an incline shaft. Hoisting equipment, including a boiler as well as pumps and compressors were brought to the site on a new Days Fork road cut for this purpose. As the mine looked more and more

promising, Ottenheimer sold it to New York City attorney William H. Scott, Jr., who went on to buy a number of adjacent claims around the Eclipse. When the Flagstaff's fifth level and the Eclipse's shaft were joined, an additional boiler and more equipment were installed. After this time all Eclipse ore was taken out through the Flagstaff mine, carried down the latter's tramway and down Little Cottonwood Canyon to the smelters. The shaft was used to lower supplies for both mines, to continue development to greater depths, and to provide an important source of ventilation. During this time extensive structures, about two hundred feet long, were built for shops, housing and operating machinery, all nested against the mountain slope so snow avalanches could flow across them without causing damage.

In March of 1887 Scott and a group of New York investors formed The Eclipse Mining Company, incorporated in the State of New York to hold and operate all the mining properties Scott had accumulated in Days Fork. New compressors were installed and pneumatic drills were purchased to enhance the operations. The Eclipse mine appeared to have a promising future, but then on the second of May 1888 the structures caught fire and the surface workings were destroyed. As was often the case when out-of-state investors were faced with a disaster at their mining property, they became indecisive and failed to meet their business

Forty years ago a number of large wooden beams, about 15 x 15 inches in cross section, remained stacked on the flat area north of the Eclipse shaft. Today only their rotted remains can be seen.

South Fork and Little Cottonwood Canyon. Some of the remaining equipment was scavenged by other mining operators over the years, while some still remains on the site for visitors to see and wonder about.

obligations. As a result the company was sued for unpaid bills. When the case came up in court and the company failed to defend itself, the property was sold by the U.S. Marshal to pay the plaintiff. And again, as often happened in a case like this, it was the plaintiff who bought the property. However, he immediately sold it to a new group of out-of-state investors, some of whom were original incorporators of The Eclipse Mining Company. But by this time the entire local mining industry was entering a period of decline, so nothing was done at the Eclipse mine. Throughout much of the 1890 decade Moses Hirschman continued to act as superintendent of The Eclipse Mining Company, but it was a vacuous position. He contracted Bright's disease and in January 1900 succumbed to his illness.

The Eclipse mine saw little further activity in Days Fork, although in later years its ore bodies were exploited through underground workings from the

# WASATCH MOUNTAIN CLUB ACTIVITIES

Only activities approved by the appropriate WMC director can be listed in The Rambler. Direct submissions to the Editor are NOT accepted. To submit your activity to the club, login to the WMC website and click on "Volunteer to Organize An Activity". The appropriate director will approve and/or edit this event for inclusion in both the web calendar and Rambler submissions. The deadline is 6:00 p.m. on the 10th of the month.

## Rules and Regulations:

## I know Outdoor Injuries!

Let's face it, sometime our bodies aren't able to meet the demands we place on it – especially when it comes to being an outdoor athlete. As an avid climber and outdoor enthusiast, I've been injured countless times. That means I know what it's like to want to get back outside doing what you love.

If something is limiting your performance, this is a great opportunity to have someone in the know help you.

Organizer: Cheryl Soshnik 435.649.9008 csoshnik@yahoo.com				
There they are...seven Park City climbs, one right after another. Yes, it's a lot of elevation gain and only 35 miles, but what's nice about this ride is that you are never too far away from your cars, and if you don't want to do all 7 hills, you can quit at any time. As usual, these Friday rides are social---climb at your own pace but we'll regroup at the top of each hill. Please call or join the email list for last minute details, if the weather doesn't look good.

Sep 24 Wed ~ 6:00 pm	<b>CLIMB</b>	<b>NTD</b>	<b>Rappeling Class</b>	<b>The Dogwood picnic area climbing wall, BCC</b>
Organizer: Rick Thompson 801.255.8058 gone2moab@hotmail.com  Never tried it? Did it once, but don't remember much? Just need a little refresher? Where ever you may be, this is your chance to learn how, how to do it better, or to feel more comfortable and be safer, on rope. You will need a harness, a descender, a couple locking carabiners, and a helmet. I have a few extras I can loan out if you don't have one, or can't borrow one, but make that arrangement ahead of time to make sure there are enough to go around. After we get by the basics, and you feel comfortable on rope, we will work with different ropes and descenders, to make you more versatile and proficient. The Dogwood picnic area is one mile up BCC canyon, on the right. Park along the road just past the entrance to the Dogwood picnic area, and then walk across the bridge and up canyon thru the area, the wall is about 50 yards up stream past the last picnic table.
