A New Email List - Travel

Adventure traveling is one thing all WMC members enjoy. Several members were interested enough that they coordinated a social. The large turnout surprised everyone. To facilitate communication amongst those interested a new WMC Activity Email List was created. Use the [Member Menu > Email List Subscribe/Unsubscribe](#) webpage to join it.

THANK YOU!

WE COULDN'T HAVE DONE IT WITHOUT YOU!

Robert Myers // President of WMC Foundation

The Wasatch Mountain Club Foundation and the Wasatch Mountain lodge have come a long way in the last eight years. We want you to know that our progress would not have happened without the support of Club members and the WMC Board. The Foundation's Board appreciates and is grateful for your support.

As many of you know, the Foundation's purposes are to preserve the lodge (located in Brighton, UT), make improvements to the lodge, and where possible offer grants and donations to other charitable nonprofit entities. In order to achieve those purposes, the Foundation has implemented a strategy for improving revenue that includes increased use of the lodge, increasing private donations, and increasing fundraising events. This strategy has proved to be challenging. The Club's transfer of the lodge to the Foundation involved not only a transition in tax status but also requirements that the lodge meet public building standards, health standards, and drinking water standards. Providing a consistent source of potable water was a big challenge but fortunately, we found support within the State Division of Drinking Water. We were able to gain a grant covering 80% of a new water system.

One of the most significant improvements in revenue came when we began to work with Vacation Rentals by Owners (VRBO) and their marketing systems. With improved public awareness of the lodge, we knew that the number of rentals would increase. With the increase in rentals and related income, we were able to improve our services resulting in better ratings from VRBO users. Eventually, we heard from VRBO customers that we could charge more for use of the lodge. Currently, we are booking 12 months in advance and have seen a 15 to 20% increase year to year for the last three years in both numbers of rentals and rental income.

As rentals and related rental income increased and also with donations of both labor and funds from Club members and participation of Club members in fundraising activities, the Foundation has been able to continue making improvements to the lodge. With the help of Club members, we have accomplished the following:

1. In the winter of 2016, we installed, finished, and painted sheetrock in the upstairs loft.
2. In the winter of 2016-2017, we installed a knotty alder wainscoting and trim on the walls of the loft.
3. Throughout the fall of 2016 to the fall of 2017, we designed and built a Forest Service Interpretive Sign on the property in front of the lodge. This was a required condition of the Forest Service lease waiver on the property.
4. Currently, we are refinishing the upstairs dorm floors, which will eventually be carpeted and refinishing the wood floor in the main room of the lodge.

Last year, we were pleased to be able to make a donation to Save Our Canyons, a charitable nonprofit organization. This year and in years to come, we look forward to making additional donations and offering grants to other such organizations.

Many of our accomplishments would never have been possible without services volunteered by Club members, donations from Club members, and the kind support of Club members and private individuals wanting to use the lodge for their weddings, winter events, family reunions, barbeques, and charitable organization events. The Foundation's Board appreciates your support. Again, THANK YOU! WE COULDN'T HAVE DONE IT WITHOUT YOU!

If you are interested in becoming involved with the Foundation, our Board is currently looking for a treasurer with accounting experience and a public relations director.

Current WMCF directors: Christine Allred, Daisy DeMarco, Ellen Jenkins, Julie Kilgore (Ex Officio, WMC representative), Robert Myers, Todd Nerney, Renae Olsen, Alicia Scotter, Bill Zwiebel

ANNUAL DUTCH OVEN COOK OFF!

The Lodge will host the Dutch Oven Cook-off once again at Brighton WMC Lodge! Plan to either come as an attendee for the event or be a Dutch oven cooker competing for the best food of the day. This year we will have a live music playing during the event. The lodge will be open at 12:00 noon for cookers and helpers willing to help us setup for cooking, charcoal, tables and chairs for the event. The social hour will begin at 3:00 PM with a bar serving beer, wine and appetizers in exchange for small donations for that service. The event Dinner will be served later in the afternoon around 5:00 PM of the day. Attendees are welcome to bring a side dish to share.

Cookers will be free and attendees will pay a \$20.00 cover fee at the door.

NATIONAL TRAILS DAY

JOIN THE
NATIONWIDE EVENT
ON JUNE 2, 2018 AND
TAKE PART IN
BUILDING THE
TRAILS WE ALL
ENJOY!

Last year several WMC members participated in National Trails Day. Pictured above is the volunteer crew with the rock wall we constructed

along the newest section of the Bonneville Shoreline Trail, located between Mt. Olympus and Heughes Canyon. This is one of many volunteer opportunities to construct and maintain trails the club participated in last year.

We meet many people on the trail interested in trail building opportunities. Now it's your opportunity to take part in building the trails we all enjoy. Join us Saturday, June 2, 2018 for National Trails Day. The workday will involve construction of a new trail in Cardiff Fork. The Cottonwood Canyons Foundation is the main organizer for the event and the Wasatch Mountain Club is the lunch sponsor. This new trail will provide travel on a trail from the parking area on the Big Cottonwood Canyon Road to the Doughnut Falls trailhead. This will get hikers off the road that is shared with motor vehicles. WMC members would use this new trail for travel to more distant features such as Cardiff Mine, Cardiff Pass, and Kessler Peak. Please register at the Cottonwood Canyons Foundation website - cottonwoodcanyons.org.

The CCF will provide information about the meeting place and time. Please remember the 10 E's, water, long pants, safety glasses, and work gloves. A light breakfast and lunch will be offered. This is also a good activity to work up for the WMC Social at the Storm Mountain Picnic area scheduled later in the day.

If you can't make it to National Trails Day, look for other trail building volunteer activities on the WMC calendar throughout the summer and fall.

EVELINE & THE WMC

by Phyllis Anderson

Eveline Bruenger passed away peacefully on April 23, 2018, after being diagnosed with lung cancer three years previously. Although not included in the obituary, Eveline and her husband, Fred, were active members of the WMC for many years. The club database has no record prior to 1993, but they were members at least by the early 1960s, if not before. It was customary at the time for the membership to be only in the husband's name, but if Fred was there, Eveline was alongside while he served as hiking director and was the recipient of the Pa Parry Award. They were avid hikers and boaters and were always ready to lend a hand when there was a job to be done, including working on the Lone Peak Wilderness Committee. Following Fred's death in 2007, Eveline continued hiking and snowshoeing, and she retraced many of the hikes that she and Fred had enjoyed together, one of the last of which was Wheeler Peak in 2012. Eveline never stopped hiking, being slowed only temporarily when she had a knee replaced at age 81. She will remain an inspiration for all of us. Eveline's obituary was published on May 5th, 2018 and is available online via the Salt Lake Tribune.

Eveline's autobiography is being published, as arranged by Eveline. It is about 200 pages with many photos and illustrations. The cost of the book is approximately \$170. However, Eveline left instructions that a book be provided to any of her friends who wanted one. So if you would like a copy, please let me know either by phone at (801) 733-4806 or by email at paisnow@comcast.net. Be sure to give your name, phone number, and email address. I will accept orders until June 30.

SERVICE HIKE AT BRIGHTON

MAY 6, 2018

Organized by Jim Kucera // Trip

Report by Akiko Kamimura //

Photos by Akiko Kamimura

Jim, Dave, Carol, and Akiko participated in a service hike at Brighton. There was still a lot of snow. Dave and Carol used snowshoes while Jim and Akiko did not. We found lots of trash, some of which may not be really trash: for example - gloves, goggles, ski poles, ski passes, tools, etc. We collected trash as much as we could. Besides collecting trash, it was a wonderful day to be on snow in sunny weather. *Group Photo: Dave, Carol, Jim, Akiko*

WHITE PINE LAKE HIKE & SNOWSHOE

The White Pine Trail was still snow covered. We used micro-spikes at first and then switched to snowshoes. It was a little difficult

to find the trail. We thought we were on the trail but turns out we were not and ended up going up a very steep slope. It was fun. The views were remarkable. White Pine Lake was frozen and under snow except the south side edge. The downhill was enjoyable on snow, much better than loose rocks. It was a sunny beautiful day. *Lunch time near White Pine Lake. YELLOWSTONE BIKE RIDE

APRIL 13-15, 2018

Organized by Ron and Julie Kilgore //

Trip Report by Stephen Dennis //

Photos by Julie Kilgore

On the morning of the ride, temperatures were 27 degrees. It warmed up slowly. I used the same hybrid bike I used last year but I raised the seat 3/4 inches, and that seemed to help tremendously. Holding back a reserve and keeping it down in a lower gear, I managed the long day without a repeat of last year's knee pain.

We all made it to Gibbon Falls. Lunch. Pictures. The viewpoint was covered in snow but that just made a better platform for taking pictures of the falls. On the return trip, the downhill cut through my pants with the cold air and it started to snow. I thought we were going to be in serious trouble but it was only light snow and it ended quickly.

When I reached the Madison bridge without knee pain, I knew I was going to make it, so I opened my reserve and finished in the middle of the pack. I know it isn't intended to be a serious bike ride but I was pleased that the lead guys had not finished loading up to leave when I arrived.

At one point, we saw two beautiful foxes in the Kilgore's backyard. They disappeared before we could take a good picture. Next, we heard all these distressed animals coming from the front of the house or perhaps

from the breezeway. It turned out that Dave was pranking us with one of his toys.

The next morning, we did a short hike near the lake looking for moose and other animals. The snow started slushing in places. Robert's camera ran out of batteries so we headed back the way we came. There was a Golden Eagle in one of the trees and some other birds. We saw the moose on the opposite shore. Dave broke his drone and fell back from the group as we returned via the top of the subdivision. Everyone made it back about the same time and later we had a moment of silence for Dave's lost drone. It was a good trip.

MOONSHINE WASH

APRIL 28-29, 2018

Organized by Donn Seeley // Trip Report by Donn Seeley // Photos by Donn Seeley

I organized my first WMC car camp of the season last weekend: an exploratory trip to Moonshine Wash and Colonnade Arch. Six brave souls were willing to let me drag them around trackless slickrock wilderness with only a few GPS coordinates for comfort; ain't it grand? Moonshine and Colonnade are about 20 and 30 miles (respectively) south of Green River along the lower San Rafael Desert Road. Moonshine is a pleasant Navajo canyon with a slot section and lots of character, while Colonnade is a multi-hole arch perched (very) high above Labyrinth Canyon and the Green River. We endured high winds that smashed tents (but with good Samaritans who saved some of our stuff), and we survived a scare with a leaky tire (not to mention Wil's ant invasion); that's all part of the (um) experience of camping. We also got to ramble around gorgeous slickrock gardens and admire pretty rocks and flowers. What more could you want? Congratulations to the hardy survivors: Suzan Baker, Alec, Stanley, Wilmer Sandoval, Michelle Couderc, and Russ. *Above: Glorious shade // Page 13: L – R: Taking advantage of the shade in the west fork with Sue, Stanley, Russ, Wil, and Michelle // Fuchsia // On the slickrock dome*

WEST GRANDEUR CLEAN UP & HIKE

APRIL 28, 2018

Organized by Dave Andrenyak // Trip Report by Dave Andrenyak // Photos by Dave Andrenyak

In addition to the Mount Olympus trailhead, the Wasatch Mountain Club has an agreement with Salt Lake County Parks and Recreation to help maintain the West Grandeur trailhead. On Saturday April 28, Alex Arakelian, eVette Raen, Stephen Dennis, Stephen Higgins, Holly Holst, Julie Kilgore, Greg Lott, Brett Smith, and Dave Andrenyak gathered to clean up trash at the West Grandeur trailhead. Following the clean up, Alex, eVette, Stephen Dennis, Julie, and Brett hiked out to the water tanks and checked out possible routes for new sections of the Bonneville Shoreline trail. Holly, Stephen Higgins, Greg, and Dave hiked up to the Grandeur Peak summit. The hike featured great views of the Wasatch, interesting rock formations, and wildflowers in bloom (glacier lilies). Thank you participants for maintaining and celebrating the beauty of the Wasatch Range. *Below: The clean up and hike crew (L to R): Stephen H., Holly, Julie, Brett, Alex, eVette, Stephen D., and Greg // Cover: At the Grandeur Peak summit (L to R): Greg, Dave, Holly, and Stephen H.*

WILLIAMS PEAK

MAY 5, 2018

Organized by Donn Seely // Trip Report by Donn Seely // Photos by Donn Seely

On Saturday, we hiked to the summit of Williams Peak in the Canyon Range via John Williams Canyon on the north side. It's one of the last patches of green forest left in the range after the massive Clay Springs fire in 2012 that destroyed most of the forest in the range. The forest was green and lovely, but the route was steep, particularly after the road ended and we had 1000 ft of bushwhacking up to a break in the cliffs on the ridgeline. The ridge to the summit wasn't very forgiving either, with lots of route finding and patches of thick mountain-mahogany. The views were outstanding, however, with big cliffs in the foreground and snow-capped ridges and peaks in the background. Thanks to Suzan Baker, Stanley, and James Kucera for being intrepid explorers and good sports! *Below: Jim pauses during the bushwhack along the ridge toward Williams Peak.*

LONE PEAK

MAY 4, 2018

Organized by Michael Hannan // Trip Report by Michael Hannan // Photos by Michael Hannan

Lana Christiansen, Nancy Martin, Brent Waddoups, and Chris Johnson and I set out to climb Lone Peak at 5:40am on May 4, 2018.

Skies cobalt blue, winds virtually non-existent, dawn silhouetting the Wasatch. Trail dry until 7,500', then just spotty snow drifts until 8475'. Enniss Peak summit block half bare, half mottled. Cowboy Camp, serious snow and serious stuff from there on up.

Last week's storm dropped 10"-12" of new snow on top of what appeared to be hardened crust, the result of which on our warm day resulted in tough work, every step approaching a posthole depth and tedious progress. Brent turned back at 7,900' as he had planned. Chris had a family camping commitment so turned around at 10,000'.

Lana, Nancy, and I continued the arduous march to the familiar cache point at 10,800'. Up to the west ridge was more of the same: softening snow on top of hard crust, kind of like a waffle cone. The traverse nearly directly to the top of the crux offered soft but stable snow, some bared boulders and an obvious menacing cornice overhanging the upper Bells Canyon area.

At the crux, we surveyed the drop to the corniced saddle, evaluated the remaining snow draped around on on the boulders leading to the actual summit, and decided it would either be all of us or no one. The decision was unanimous: This would be our turn-around point for the day. The slog down was without incident but a repeat of our near-postholing experience only this time with more slip outs and purposeful heel plunging. We had donned crampons at the cache point and on our return we removed them there. A long day but well worth the effort. *Opposite Page: Michael right before the crux and turn around point // Right: Lana demonstrates proper technique as she carefully traverses her way down in the warm May sunshine // Below: Michael, Nancy, and Lana near the summit of Lone Peak*

ROAD BIKE: LEGACY PARKWAY TRAIL TO HARMON'S

MAY 6, 2018

Organized by Marcia Hanson // Trip Report by Pat Christian // Photos by Pat Christian

It was probably the hottest day of the year, Sunday, May 6, 2018. What a great day! For me, this relatively new Wasatch Mountain Club member, who hasn't been on his bicycle in two years, but who has ridden once, twice or thrice in a spin class at Orem Rec', well, I figured I might have a decent 15 miles in these oldies legs.

WMC ride host, Marcia Hanson announced this ride in the Activities Calendar as a NTD (Not Too Difficult) moderately paced 30-mile ride. As my professional triathlon coach son, Shaun, once told me, "If you can do X miles you can probably really do twice that if a bear is chasing you."

I had been watching the Activities Calendar and had not seen any 15-milers. I really hadn't expected one that tame. I had seen Katie Kunz 26-mile City Creek with 2,180 vertical gains and Kevin Earl's 30-miler also with vertical gains. I wasn't ready for the "V" word yet. Sunday's ride from Salt Lake City to Farmington and back with virtually zero "V" seemed a good-enough shot at returning to biking. Of course, no one could have predicted we would be fighting headwind on the return leg of this out-and-back ride.

I think seven of us showed up at the Agriculture building on Redwood road, not too far from the Interstate-80 off-ramp where we started riding on the Jordan River trail. The cool meandering Jordan River views were refreshing. Along the way, another WMC member joined us further north closer to his home. He was on a sweet red, pedal mountain bike with an electric motor assist. I soon became jealous.

I started out timidly in the back of the pack, but soon tried passing a few riders but before long I was expectedly dragging at the back of the pack. It didn't surprise this 76er, and I don't mean Philadelphia 76er. Pedaling northwards, we soon joined the Legacy Trail. Wow, two trails for the price of one; who could ask for more?

It was a nice moderately paced cat-and-mouse chase for about 15 miles until we stopped for refreshments and pleasant socializing at the Harmon's Grocery Store in Farmington. We then headed south back towards Salt Lake City taking a few different bike trails on the return leg until we were finally back on the trail we had come to Farmington on. By now, I was starting to get confirmation that indeed I was probably good for about 15 fun miles and I could call this return 15 miles "training."

With a head-wind building, the slower pace allowed maybe a little more sightseeing. Along the way, we may have passed a model aircraft field or simply a field. A large fixed-wing airplane was performing aerobatics.

"There was a turtle back there," said the E-mountain biker who had joined along our way as he passed one of the multiple water features we encountered. He left our group of eight later as he passed an off-trail closer to his home.

I stopped to photograph corralled llamas next to the Legacy Trail. It is a multi-use trail and we saw skateboarders, runners, walkers, and in-line skaters. We mostly passed fellow bicyclists. Horses use the trail too. We didn't see any but we did see their "Legacy."

I don't usually care all that much for the loudness of 2-stroke motorbikes. As I was fatiguing and the trail passed a dirt-motorcycle park with dozens of racers kicking up dust, I was thinking I wouldn't mind having a motor on my two-wheeler about now. On occasion, I imagined how pleasing the Jordan River might feel if I got off and took a dip or if I simply road off the trail and into the river.

Before I knew it, I was joining the remains of our ride back at our cars. Marcia was on the phone finally in touch with a missing rider who said there had been a tire problem but that he was now rolling toward us.

Thanks Marcia for a great 15-mile fun ride and a much needed 15-mile grueling training ride. What doesn't kill you makes you stronger?

ROCK CLIMB 101 CLINIC: LEARN TO CLIMB

APRIL 28, 2018

*Organized by Kathleen
Waller // Trip Report by
Kathleen Waller //
Photos by Kathleen

Volunteers: Neil Schmidt, Greg Baldacci, and Paul Gettings

Junior Volunteers: Emma and Aubrie Baldacci

Participants: Melissa Garland, Denise Baldacci, Tom Swapp, and Shelley Swapp

This was a beginners' workshop on the fundamentals of rock climbing, equipment use and selection, and safety. WMC offered an experience in climbing for folks who feel rusty and just want a refresher or just want to learn and improve their fundamental skills. This was a great opportunity to meet and learn with other interested beginner climbers and experienced climbers.

We covered climbing gear and techniques including proper belay, top rope climbing, and climbing with a focus on safety. Experienced climbers joined us as volunteers to share their expertise as well as setting up and taking down top rope routes.

The volunteers set up four routes on Geezer Wall in Big Cottonwood Canyon ranging from 5.5 to 5.6: Whipper Snapper (5.5), Sweet Louis (5.5), Lower Dentures (5.6), and Golden Years (5.5). Each participant climbed each route once and had the opportunity to belay another climber on each route.

Kayaking Upper Green River Class I-ii+ – 30.0 mi

8 *Meet:* Registration required

Fri *Organizer:* Gretchen Siegler gsiegler@westminstercollege.edu

– We are planning a two night kayaking/camping trip on the upper Green River for the weekend of June 8th (meet shuttle early June 9th) through June 11th (meet shuttle mid-day on Monday). We will put in at the dam and float approximately 30 miles. This is totally self-supported where you bring your own gear, food, and other supplies. The trip is full but a few spots could open up for those on a waiting list (e-mail gsiegler@westminstercollege.edu to be placed on this list, or for more information).

Canyoneering - Great White Icicle – ntd+

9 *Meet:* 9:30 am at Park down-canyon from the LCC power plant (just up-canyon from Gate Buttruss parking lot), on S side of road. Do not park at the power plant.

Sat *Organizer:* Paul Gettings 801-599-7311 p.gettings@gmail.com

Described once as a fun single-day outing for practicing your canyoneering skills. Let's go do the Great White Icicle in reverse - hiking up the ice climb retreat gully, then rappeling the pitches of the Icicle as a technical canyoneering outing. Helmets required, and be prepared for some wet sections if the stream is still flowing. Depending on how many bolted anchors still exist and can be found, we may have to leave webbing for some rappels, so bring your alpine anchor stuff.

Annual Bike Touring Overnighter – mod – Out & Back

9 *Meet:* Registration required

Sat *Organizer:* Cheryl Soshnik 435-649-9008 csoshnik@yahoo.com

– Calling everyone interested in bike touring...experienced to never-ers, this weekend is for you. You can start from 'your house' or come up to Park City and start from 'my house', we will all end up at RockCliff Recreation Area of the Jordanelle State Park. Distances and elevation gain will depend on where you start riding, between 27 and 60 miles. Once we get to RockCliff, we'll have dinner, compare bike touring stories, talk equipment, plan future trips, and just socialize with other like minded folk. We'll camp that night, and after breakfast Sunday morning, pack up and head back home, or if you have planned a longer trip, continue on your bike tour. We have 3 campsites reserved at RockCliff, so registration is required. For more information or to register, contact either Cheryl Soshnik (info below) or Lou Melini (lvmelini@comcast.net)

A workshop to learn the necessary skills for setting & cleaning top rope anchors, following on multi-

pitch climbs, and some useful knots for climbers. Helmets are required. The workshop will cover setting up and cleaning a 2-bolt top rope anchor using WMC anchor kit, including the rappel; rope packaging techniques with and without rope bags; techniques for attaching to an anchor for multi-pitch changeovers; clove hitch, munter hitch, prussik (& autoblock) knots. This workshop is particularly valuable for newer climbers needing an introduction to these topics, but more experienced climbers are welcome to come refresh skills and help show new climbers techniques. Bring helmet, harness, belay/rappel setup; personal anchor, slings, prussik cords, friction hitch materials, and spare locking carbiners if you have them. Please RSVP to make sure enough ropes show up. There is a \$10 suggested donation for this workshop.

Meet: 3:00 pm at WMCF Lodge - 8465 S Mary Lake Lane, Brighton, UT
 Sat *Organizer:* Robert* Myers 801-651-9965 robertmyers47@gmail.com
 The Lodge will host the Dutch Oven Cook-off once again at Brighton WMC Lodge. Plan to either come as an attendee for the event or be a Dutch oven cooker competing for the best food of the day. This year we will have a live music playing during the event. The lodge will be open at 12:00 noon for cookers and helpers willing to help us setup for cooking, charcoal, tables and chairs for the event. The social hour will begin at 3:00 PM with a bar serving beer, wine and appetizers in exchange for a small donations for that service. The event Dinner will be served later in the afternoon around 5:00 PM of the day. Attendees are welcome to bring a side dish to share. More details check the June Rambler online. Cookers will be free and attendees will pay a \$20.00 cover fee at the door.
- Jun 30 **Brighton Ridge Hike/lodge Dutch Oven Cook Off – msd- – 10.0 mi Loop – Moderate pace**
Meet: 9:00 am at Big Cottonwood Canyon Park & Ride
 Sat *Organizer:* Julie Kilgore 801-244-3323 jk@wasatch-environmental.com
 Up the boulders of Millicent, might as well tag Wolverine while we're there, following the ridge over to Tuscarora, Sunset, and Pioneer Peaks, maybe catch Clayton, then dropping back into Brighton at Snake Creek Pass. We're going to slow it down a bit, making a solid 8-hour day out if it so we show up hungry at the WMC Lodge Dutch Oven Cook Off (see separate posting for this grand party!). There is a bail-out option at Catherine's Pass if some folks only want to go part way, or need to get back to the Lodge to start their Dutch Oven Delicacies.
- Jun 30 **Rock Climb - Big Cottonwood Canyon - Tbd**
Meet: 9:00 am at Big Cottonwood Canyon - TBD
 Sat *Organizer:* Kathleen Waller 801-859-6689 kathwaller79@gmail.com
 Let's plan on climbing in the morning in Big Cottonwood Canyon before the Dutch Oven Cook Off at the Wasatch Mountain Club Lodge. Please email me if you have a favorite crag and are interested in organizing this climb.
- Jul 1 **Flat Water-swazey Beach To Mineral Bottom On The Green River – class I – 80.0 mi – 100' ascent**
 Sun *Meet:* Registration required
 – *Organizer:* Bob Cady 801-274-0250 rcady@xmission.com
 Jul OK, so it isn't entirely flat water, but there is a portage way around the diversion dam on the first day
 7 if you don't feel like running the boat passage, and there is the option to meet up with us at Green
 Sat River State Park below the dam for a 5 day instead of a 6 day trip. We put in on the flats and watch the canyons get deeper until we take out at Mineral Bottom. I know of at least one ancient petroglyph panel and one modern petroglyph. There are side hikes up some of the side canyons with some old uranium mines. I got shut out for permits this year, so this is the best I can do. I will be bringing a small raft to carry heavy gear, but most people will want to be in a canoe or IK.

- Jul 4 Wed – **La Sal Mountains Car Camp – mod+**
Meet: Registration required
Organizer: Donn Seeley 801-706-0815 donn@xmission.com
 The La Sals are Utah's second highest mountain range after the Uintas. They are steep and wooded, with awesome views over redrock country to the west. We'll head down on Wednesday July 4th and hike the high points of the three clusters of peaks: Mt Waas, Mt Peale and South Mountain, returning Sunday. The hikes aren't that long, but there is a fair amount of talus and routefinding at high elevation. We can take in Moab's July 4th celebration and work in other highlights. This trip is exploratory.

- Jul 13 Montana White Water Rafting Trip – class III – 120.0 mi**
Meet: Registration required
Fri Organizer: Michael* Budig mbudig@mail.com
 – This will be two-legged trip exploring the North Fork of the Flathead and Yellowstone rivers in Montana. First we will drive up Glacier National Park where we will start on the North Fork (Wild and Scenic) of the Flathead near the Canadian border and heading south for about four days and 58 miles along the west border of Glacier National Park. Then we will head to Gardiner, Montana where we will put in on the Yellowstone River just north of the park and heading north for about 55 miles. Both Rivers will be Class 2-3 with a few Class 3 rapids and will be in grizzly habitat. Contacts: Martin Beumer: Martin Beumer@gmail.com and Jen Heineman: JHeineman28@yahoo.com \$100 nonrefundable deposit to be sent to Martin Beumer. Limited to 14 participants.
- Jul 13 Road Bike Weekend: 11th Annual Huntington Canyon And Scofield Trip – mod+ – Out & Back**
Meet: Registration required
Fri Organizer: Robert* Turner 801-560-3378 r46turner@gmail.com
 – We'll camp this year on top at Flat Canyon Flat campground. We've camped there a few times in years past. It offers excellent views of the surrounding scenery. Disclaimer: The campground has pit toilets, and no water. We will have to bring our own. ----- Some trip details: We'll drive down Friday (Jul 13) and camp Friday and Saturday nights.-----Saturday, we can do a ride on top, over the summit and down the canyon as far as we want (but not past the Stuart Guard Station, I'd say), then back up over the summit and down to camp. Hardy souls can continue on past the upper end of Electric Lake to the top of Eccles Canyon before returning to camp. Another option is to drive over the summit to the Huntington Canyon Power Plant, then ride from there to the summit and back. No matter what you do, you'll see the scenery at the top of the canyon, which is to die for as any of you who have been there before know. The rides as outlined are in the MOD+ to MSD- categories, but you can make them easier if you want by shortening them.-----Sunday morning we'll pack up and head for home via the Energy Loop Scenic Byway, stopping in Scofield to do a three-legged ride in the valley. It ends with a must do segment up to the charming little mining town of Clear Creek (it's just too good to miss). This ride is in the NTD+ to MOD category, depending on how far you ride.----- Contact Robert for more details and to register.

Jul 31 Tue **Backpack: Flat Tops Wilderness (co) – mod+ – 32.0 mi Out & Back – 4500' ascent – Moderate pace**
Meet: Registration required
Organizer: Michael Berry 801-750-1915 mcber.ut@gmail.com
– Aug 4 Sat A 5-day/ 4 night backpack on a 'lollipop' route in Colorado's 2nd or 3rd largest wilderness area (One night car-camping at Trappers Lake after a 6-hour drive the prior day). The Flat Tops do not include any peak (baggers) over 14,000 ft. and that is a good thing IMHO. You will have to put up with my skittish border collie (not a random barker) and possibly daily afternoon thundershowers. Prior "leave no trace" backpacking experience and a good fitness level is a must. Expect a wildflower showstopper. WMC members will be given priority to register up to July 23th (Trip minimum: 3 participants by the 24th- or trip subject to cancellation; Maximum: 6 participants). Non-members may register on the 24th, if space is still available. Registration deadline is July 27th. Five dollars in my mailbox will secure your spot and will be used to cover the one-night Forest Service car camping fee.

Meet: Registration required
Sat *Organizer:* Kathy Jones 801-518-4227 cooperdog1@comcast.net
– This is a two part trip. Paddling and backcountry camping in Grand Teton National Park. You can do
Sep part or all of the trip, but preference will be given to those who are able to do the whole thing. Part
1 #1 - Leigh Lake Aug. 25 - Aug. 28. Part #2 - Jackson Lake Aug. 29 - Sept. 1. Camp at Colter Bay
Sat campground on Aug. 28 between part #1 and part #2. This is a Self-Support trip. Participants are
responsible to have their own boat, camping gear, cooking gear, and food. A backcountry toilet
system will be provided by the group leader. Water can be filtered from the lakes. This is bear
country so safe food storage is required. All camps have bear boxes for food, trash, and personal
toiletries. Bears have been seen on these trips the past 3 years. You must be a strong
novice/intermediate paddler for part #1 on Leigh Lake. You must be at least a strong
intermediate/experienced paddler for part #2. Both trips can involve wind, waves, and some short
open water paddling. The trip is suitable for hard shell touring kayaks and canoes only. Inflatables
may be negotiable on part #1 - but NO inflatables on part #2. Group size is 6 total. Please contact
organizer if you are interested.

games, socializing, and getting to know your fellow WMC members.
- Sep 5 **Yellowstone Backpack – mod – 45.0 mi Loop – 3500' ascent – Moderate pace**
Meet: Registration required
Wed *Organizer:* Michael* Budig mbudig@mail.com
– This will be another September Yellowstone backpack. Destination is yet to be determined, but plan
Sep on a trip of about 40-45 miles and elevation gain of about 3500 feet. Please contact by email for
11 details or registration.
Tue
- Sep 7 **Road Bike Weekend: Fish Lake - Sevenmile Creek – mod+ – Out & Back**
Meet: Registration required

Fri *Organizer:* Robert* Turner 801-560-3378 r46turner@gmail.com
 – This trip turned out so well last year that we just have to do it again. We ride the road up Sevenmile
 Sep Creek near Fish Lake that was just paved a couple of years ago. The scenery is simply gorgeous and
 9 the climb to the summit isn't bad: about 3.2%. ----- Some trip details: We'll camp at Bowery Creek
 Sun Campground (8848 feet elevation) at Fish Lake Friday and Saturday nights (Sep 7 and 8) and start
 our rides from there. (Note: If you don't want to camp, there are cabins and some motel rooms close
 by you can reserve. Contact me for info.) ----- On Saturday, we'll ride east to Johnson Valley
 Reservoir and up Sevenmile Creek to the summit (10,506 feet). The ride is 34 miles with 2075 feet
 elevation gain. Hardy souls can continue down the other side perhaps to Taylor Flat overlook, which
 adds 11 miles and 1725 feet of gain (45 miles and 3800 feet total). Naturally, you can make the ride
 as easy or hard as you want by shortening or lengthening it. ----- Sunday we can do a short ride in
 the Fish Lake area or ride back over to Johnson Valley and down along the Fremont River until we
 want to turn back. That would give us ride options from about 20 miles and 700-900 feet of gain to
 about 38 miles and 2900 feet of gain (or more if you want). Once again, you can shorten or lengthen
 the ride to suit your taste. ----- After the ride, we'll head for home. Lots of route options for the
 return trip, so you can see some new territory on the way back if you like. Early September is a most
 wonderful time to be in the mountains. Not too hot and not too cold. We'll spend most of our time
 between about 8800 and 10,500 feet elevation, so it won't get very hot during the day, and it will
 likely only be cold at night and early, early in the morning. Should be a great weekend!

WASATCH MOUNTAIN CLUB (WMC) Applicant Agreement, Acknowledgement of Risk and Release from Liability

VOLUNTARY PARTICIPATION: I acknowledge that my participation in all WMC activities is voluntary. No one is forcing me to participate. I agree to abide by the rules of the WMC.

ASSUMPTION OF RISK: I am aware that WMC activities involve risks, and may result in injury, illness, death, and damage to or loss of property. These dangers include but are not limited to: the hazards of traveling in remote areas without medical services or care, the forces of nature, the inherent dangers involved in participation in sports, wilderness travel, and social activities, and the negligent actions of other persons or agencies. I understand that all activities should be considered exploratory, with the possibility of unexpected conditions and route variations. The WMC is not, nor does it provide, a professional guide service. In order to partake in the enjoyment and excitement of WMC activities, I am willing to accept the risk and uncertainty involved as being an integral part of the activity. I acknowledge this risk, and assume full responsibility for any and all risks of injury, illness, death, or damage to or loss of my property.

PREPARATION: I understand that it is my responsibility to evaluate the difficulties of any WMC activity I participate in, and decide whether I am prepared by having the experience, skill, knowledge, equipment, and the physical and emotional stamina to participate safely.

RELEASE OF LIABILITY AND PROMISE NOT TO SUE: I agree that I, my heirs, personal or legal representatives hereby do release and hold harmless from all liability, and promise not to bring any suit or claim against the WMC, its activity organizers, directors, agents or representatives for any injury, illness, death or damage and loss of property resulting from my participation in any WMC activity even if they negligently caused the injury or damage.

LEGAL FEES: Should it become necessary for the WMC, or someone on their behalf, to incur attorney fees and costs to enforce this agreement, I agree to pay the WMC reasonable costs and fees thereby expended, or for which liability is incurred.

INSURANCE: I understand that the WMC strongly recommends that I maintain insurance sufficient to cover any injury, illness or property damage that I may incur while participating in WMC activities. In the event of injury, illness or death related to any WMC activity, I recognize that I, or my estate, will bear the full cost of my evacuation or recovery, and any related medical care that I may need. I acknowledge that the WMC carries no insurance whatsoever for any participants in WMC activities.

SIGNATURE: My signature below indicates I have read this entire document, understand it completely, understand it affects my legal rights, and agree to be bound by its terms. I certify I am at least 18 years old.
